

Radio Frequency Transmitter & Receiver

Box Contents

RF Transmitter

Cable 8'

RF Receiver

Instructions

1. Plug one end of cable into the RF receiver. Plug the other end into an "EYE" port of the controller.
2. Remotes comes already paired with the receiver. If not working, follow instructions to pair remote with receiver.

Pairing Remote with Receiver

1. Press and release the black "PRESS TO LEARN" button on the side of the receiver. When released the "PROGRAM MODE" LED will light up solid red.
2. Press any button on the transmitter. Once a button on the transmitter is pressed, the "PROGRAM MODE" LED will turn off.
3. The transmitter is not programmed to work with receiver.

Regulatory Statements for FCC & IC Transmitter

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
