C20 Smart Charger User Manual

How to charge:

1. Connect the adapter with C20 charger, and connect the adapter to power.
2. When it is not in charging, the indicator light on the charger keeps green.
3. Put the ring scanner into the bottom of each charging slot with the scan window upward. Please note the power contacts between the ring and cradle must be touched, and the ring strap must be pushed to the end of slot.
4. When the indicator light turns red, it indicates the ring scanner is in charging. When the indicator light turns green, it means charging finished.
5. If you need to disconnect the ring scanner with the device connected before, please scan the barcode on the middle of the C20 charger.

Components

Item	Quantity	Usage
 Charger	One	Support 10 sets of ring scanners in one charging cycle
 USB Cable	One	Connection between power and charger
5V2A Adapter	One	To connect the power
Certificate	One	Factory certificate
User manual	One	User manual

Specifications

L*W*H (MM)	266.5*151.4*36.7
Weight (KG)	1.02
Working temperature	-10°C~50°C
Charging grooves quantity	10 Pcs
Bluetooth	BT4.2, BLE
Charging port	Micro USB
Machine electrical parameters	Rated input voltage : 5V
	Rated input current : 2A
Charging indicator light	In charging: static red
	Charging finished: static green

Notice

1. Check the ground connection safety before using.
2. Do not spray any liquid onto the charger.
3. If the charger will not be used, please pull out the power adapter.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

C20 Smart Charger User Manual

Manufacturer's Name: Shanghai Hyco Genyong Technology Co., Ltd.

Sample Description: Smart Charger

Trade Mark: HYCO

Model number: C20

Operating Temperature: -10° C to 35° C

This product is a fixed location. To comply with RF exposure requirements, a minimum separation distance of 20cm must be maintained between the user's body and the device, including the antenna. Use only the supplied or an approved antenna. This device in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. All essential radio test suites have been carried out.

1. CAUTION : RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
2. The device complies with RF specifications when the device used at 20cm from your body

CE NB RF specification:

Function	Operation Frequency	Max RF Outputpower (dBm)	Limit (dBm)
BLE	2402-2480MHz	6.11	20

This product can be used across EU member states
