

Item No.: QI02S Wireless Charger

Specification

Input Voltage	20-36V =1A Max
Output Power	5W/7.5W/10W Max
Product Size	Converter50×30×17.7, ChargerΦ59.5×16.5
Effective Transmission Distance	0-8mm (Between wireless charger TX coil and RX coil)
Power Supply Mode	Control box output 33V to power
TX/RX Frequency Rang	115KHz - 178KHz
Radiate H-Field	27.54dBuA/m@3m

Installation

Operation Instruction

Place the wireless device on the wireless charging area while the power is connected. A buzzer sounding "D1", indicating that the phone is charging.

Attention: Do not place any other object between the smart phone and the Wireless Charging Module. The smart phone may not charge properly

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Declaration of Conformity

Hereby, Loctek Ergonomic Technology Corp. declares that the product type QI02S is in compliance with Directives 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.loctekmotion.com

WARNING: Read all safety information below and operating instructions before using this wireless charger to avoid injury and damage to your device.
Failure to follow these Safety instructions could result in fire, electric shock, or other injury or damage.

1. Do not use or place the product in or near fire, stoves, or other high temperature location, which may cause the product to overheat or fail and result in a risk of fire or explosion.
