| <p><b>EUT Housing and Board<br/>View 1</b></p> |  A photograph showing the internal components of a mobile phone, specifically the battery and the back housing. The battery is a white rectangular unit with the 'wölki' logo and technical specifications: Model: W55SE, 1650mAh/3.8V, 6.27Wh, Charging Voltage Limited 4.35V, Production Date: 21.03.30. The back housing is a white plastic cover with a blue rectangular cutout for the camera. A black ruler is placed horizontally below the components, showing measurements in millimeters.  |
| <p><b>EUT Housing and Board<br/>View 2</b></p> |  A photograph showing the internal components of a mobile phone, specifically the battery and the back housing. The battery is a white rectangular unit with the 'wölki' logo and technical specifications: Model: W55SE, 1650mAh/3.8V, 6.27Wh, Charging Voltage Limited 4.35V, Production Date: 21.03.30. The back housing is a white plastic cover with a blue rectangular cutout for the camera. A black ruler is placed horizontally below the components, showing measurements in millimeters. |

|                                                                   |                                                                                                                                                                                                                                                                                                                      |

| <p><b>EUT Housing and Board</b><br/><b>View 3</b></p>             |  <p>A photograph showing the internal components of a mobile phone, including the battery, circuit board, and housing, placed next to a ruler for scale. The battery label includes the model W55SE, IMEI numbers, and FCC ID.</p> |
| <p><b>Solder</b><br/><b>Board-Component View</b><br/><b>1</b></p> |  <p>A photograph showing the soldered components on the circuit board, including the SIM card slot, camera module, and various electronic components, placed next to a ruler for scale.</p>                                       |

|                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Solder<br/>Board-Component View</b><br/>2</p> |  A photograph of a green printed circuit board (PCB) component, labeled '2', showing various electronic components and solder joints. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning from approximately 10 mm to 80 mm.  |
| <p><b>Solder<br/>Board-Component View</b><br/>3</p> |  A photograph of a green printed circuit board (PCB) component, labeled '3', showing various electronic components and solder joints. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning from approximately 10 mm to 60 mm. |
