Product Composition

Pet Keeper

Fastener

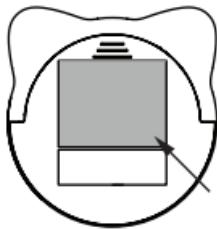

User Manual

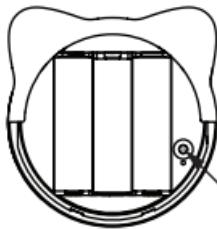

Three AA Batteries
(Not Included)

Subparts

Attach fastener here

Pairing button

Insert three AA batteries and press the pairing button to activate Pet Keeper and pair it with your phone.

Step One: App Installation

1. Connecting to Wi-Fi

Connect your phone to Wi-Fi (2.4 GHz frequency only).

2. Downloading the App

Search “Pet Keeper” on the Google Play Store or Apple App Store and download the app.

3. Registration

Use your email or phone number to sign in and register your Pet Keeper.

4. Log in

Log in and follow onscreen instructions.

Step Two: Starting Pet Keeper

1. Preparing to Pair

Press and hold the pairing button for five seconds until the light starts blinking.

2. Connecting to Wi-Fi

Select the correct Wi-Fi network and its password in the app.

3. Pairing

In the app, press the “Start Pairing” button. The app will attempt to connect to your Pet Keeper for two minutes. If connection fails, review your network settings or restart your phone and Pet Keeper (see page 8).

4. Next Steps

Please continue to step three and four to finish setting up. To troubleshoot, visit our website or contact our customer service.

Any question in setting, please call customer service hotline:010-6559-9901

Contact address: 5,Seongsuil-ro 8-gil,Seongdong-gu,Seoul,Republic of Korea

Step Three: Attaching Pet Keeper to the Litterbox

After pairing is successful, attach Pet Keeper to your litterbox.

Open-style Cat Litter Box

Closed-style Cat Litter Box

The fastener should be placed two inches or five centimeters above the surface of the litter.

Place the fastener on the center of the inside wall. Make sure the fastener attached such that the face of Pet Keeper will not be facing outside.

[Attention] Avoid direct sunlight.

This product is not water-proof, please keep away from water .

Step Four: Additional Information

After Pet Keeper has been paired, attach Pet Keeper to the litterbox within three minutes.

If Pet Keeper needs to be placed in a different location, you must restart Pet Keeper before doing so.

Do not place other objects in the litterbox when setting up your Pet Keeper and attaching it to the litterbox.

Step Five: Restarting Pet Keeper

If Pet Keeper needs to be connected on a different network or if you change your phone, you should restart your Pet Keeper.

Press and hold the pairing button for ten seconds. The light will light up, and after five seconds, the light will start blinking. After blinking stops, release the button.

The light will blink again for a few seconds after releasing the button. Pet Keeper has been successfully restarted if the light then turns off.

Product Specifications

Dimensions:

WARRANTY CARD

Fill out this card before using Pet Keeper and keep this card in a safe place.

Product Name	Pet-Keeper	Model Number	CL1
Date of Purchase		Serial Number	
Location of Purchase		Name of Purchaser	
Address		Contact Information	

Pet Keeper comes with a one-year limited warranty, which starts from the date of purchase.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
