Premises</b></p><p>Before you use Echo to control your smart device, please make sure below premises are satisfied:</p><ul style="list-style-type: none"><li>A good Wi-Fi network that your device can surf Amazon smoothly.</li><li>An Echo device includes Echo, Echo Tap or Echo Dot; An Amazon account.</li><li>The smart life app and the corresponding account.</li></ul><p><b>2. Set up Amazon Echo and start smart life skill</b></p><p>Users can set up Amazon Echo through website or Amazon Alexa app.</p><p>The website to set up Amazon Echo: <a href="http://alexa.amazon.com/spa/index.html">http://alexa.amazon.com/spa/index.html</a></p><p>Search "Amazon Alexa" in application market to download and install the app.</p><p>This user manual introduces the setup process of Amazon Alexa app, and the setup process through website is basically same to that of Amazon Alexa app.</p></div> <div data-bbox="911 710 1129 884"><p><b>2.1 Set up Amazon Echo through Amazon Alexa app</b></p><p>2.1.1. Please make sure your Echo device is power on.</p><p>2.1.2. Please make sure Echo is within a good Wi-Fi network to surf Amazon stably.</p><p>2.1.3. Open the Alexa app.</p><p>2.1.4. Enter Amazon account and password, and click Sign in to login.</p><p>2.1.5. Successfully login and click menu at the top left corner of home page, choose Settings, then click Set up a new device to set up Echo device.</p><p>2.1.6. Choose your Echo device, and set up the language as English (United States), and then click Connect to Wi-Fi.</p><p>2.1.7. When below page comes out, keep pressing the small round dot until the Echo light turns into yellow. Then click Continue and choose Allow in the page of authorization request, then the mobile phone will connect to Echo automatically. Then, click Continue.</p></div> <div data-bbox="911 893 1129 1068"></div> <div data-bbox="1007 1135 1019 1149"><p>4</p></div>	<div data-bbox="1166 488 1385 562"></div> <div data-bbox="1166 571 1385 689"></div> <div data-bbox="1166 698 1385 795"></div> <div data-bbox="1166 804 1385 900"></div> <div data-bbox="1166 909 1385 1005"></div> <div data-bbox="1166 1014 1385 1111"></div> <div data-bbox="1262 1135 1275 1149"><p>5</p></div>
<div data-bbox="150 1191 363 1265"><p>2.2.2. Please enter your smart life app account and password in the new page, and choose your country, then click Link Now to let your account be bound to Echo. When there is "Alexa" has been successfully linked with Smart Life, that means your account is successfully bound to Echo, then you can click "+" at the top left corner to go back to Alexa app.</p></div> <div data-bbox="150 1274 363 1395"></div> <div data-bbox="150 1415 363 1518"><p><b>3. Control your smart device by Echo</b></p><p>3.1. Discover your device</p><p>Before controlling your device, Echo needs to discover it. You can tell Echo "Alexa, discover devices". Echo will scan the device which was set up through smart life app, such as the lamp bulb. After 20 seconds, Echo will reply the scan result.</p><p>You can also discover the device by clicking Discover Devices in the smart home page of Alexa app. The discovered devices will be shown in the list.</p></div> <div data-bbox="150 1527 363 1702"></div> <div data-bbox="150 1711 363 1830"><p>Remark: Every time the name of the device is changed in the smart life app, Echo has to discover the device again, otherwise you can't control the device through Echo.</p><p><b>3.2. Voice control</b></p><p>Now you can use Echo to control your smart device. You can use below orders to control your device (take the bedroom light as an example).</p><p>Alexa, turn on/off the bedroom light.</p><p>Alexa, set the bedroom light to 50 percent.</p><p>Alexa, brighten/increase the bedroom light.</p><p>Alexa, dim/decrease the bedroom light.</p></div> <div data-bbox="248 1836 261 1850"><p>6</p></div>	<div data-bbox="400 1191 619 1243"><p>You can create a group for some of the devices in Alexa app, and control all of them by one order. In smart home page, click Create Group and set a group name such as my smart lights, and tick the devices which you want to add into the group, then click Save.</p></div> <div data-bbox="400 1252 619 1348"></div> <div data-bbox="400 1357 619 1453"></div> <div data-bbox="400 1462 619 1559"></div> <div data-bbox="400 1568 619 1664"></div> <div data-bbox="400 1673 619 1769"></div> <div data-bbox="400 1778 619 1874"></div> <div data-bbox="499 1836 512 1850"><p>7</p></div>	<div data-bbox="655 1191 874 1243"><p>Before setup of Google Home, please make sure to change the mobile phone language in English US, otherwise the setup will be failed.</p><p>2.1 Set up Google Home by Android system</p><p>If you have already set up Google Home, you can skip this procedure.</p><p>2.1.1. Please make sure your Google Home is power on.</p><p>2.1.2. Please make your mobile phone connect to the Wi-Fi network that can surf Google normally, and this network is the one Google Home is going to connect.</p><p>2.1.3. Open the Google Home app on your mobile phone.</p><p>2.1.4. Choose Accept at the bottom right corner to agree the Google service terms and privacy policies.</p><p>2.1.5. Choose Allow to agree the app use the location, thus, the app can discover and set up the nearby Google devices.</p><p>2.1.6. Click SIGN IN in the new page, and choose the Google account which you have logged in in the mobile phone.</p><p>2.1.7. After login, Google Home app will scan the nearby Google Home devices which are power on and standby for setup. If the app can't find Google Home, please make the Google Home power on and put the mobile phone close to Google Home, and try again.</p><p>2.1.8. Find the devices and click CONTINUE to go on.</p><p>2.1.9. At this time, the mobile phone will try to connect Google Home. If it fails, please put the mobile phone more close to Google Home and try again.</p><p>2.1.10. When the mobile phone successfully connects to Google Home, click PLAY TEST SOUND, then Google Home has a tone to inform you that it connects to the correct device. When you hear the tone, click I HEARD IT to next procedure.</p><p>2.1.11. Choose the room that your Google Home in, in order to identify it from other Google devices. Then click CONTINUE.</p><p>2.1.12. Choose the Wi-Fi that you want to connect your Google Home (usually it's the Wi-Fi your mobile phone connects), click OK to allow Google Home obtain the Wi-Fi password automatically. Then, click CONTINUE. Or you can enter the Wi-Fi password by yourself.</p><p>2.1.13. Google Home will try to connect Wi-Fi network, after connection, click CONTINUE.</p><p>2.1.14. In order to let Google Assistant reply to your requirement, you need to log in your Google account again. Click SIGN UP and choose the account that you want to use, click CONTINUE AS XXX.</p></div> <div data-bbox="655 1252 874 1348"></div> <div data-bbox="655 1357 874 1453"></div> <div data-bbox="655 1462 874 1559"></div> <div data-bbox="655 1568 874 1664"></div> <div data-bbox="655 1673 874 1769"></div> <div data-bbox="655 1778 874 1874"></div> <div data-bbox="751 1836 764 1850"><p>8</p></div>	<div data-bbox="911 1191 1129 1220"><p>2.2.2. Click "+" at the bottom right corner to add devices, and find Smart Life in the list.</p></div> <div data-bbox="911 1229 1129 1395"></div> <div data-bbox="911 1404 1129 1456"><p>2.2.3 In the login page, choose the country that your Smart Life app account belongs to, and enter the account and password, then click Link Now. When the binding process is finished, choose the room where your device is, then your device will be in the devices list of Home Control.</p></div> <div data-bbox="911 1464 1129 1639"></div> <div data-bbox="911 1648 1129 1823"></div> <div data-bbox="1007 1836 1019 1850"><p>9</p></div>	<div data-bbox="1166 1191 1385 1265"><p>2.2.4. Control your smart device with Google Home Now, you can control your smart device with Google Home. Take the bedroom light as an example, the available orders include:</p><p>OK Google, turn on/off the bedroom lights.</p><p>OK Google, set the bedroom light to 50 percent.</p><p>OK Google, set the bedroom light to red.</p></div> <div data-bbox="1166 1274 1385 1377"><p>Remark:</p><p>This device complies with Part 15 of the FCC Rules.
