

USER MANUAL

Bluetooth audio transmitter module

Model No.: EP266T-E02

Product Features

1. Turn your regular stereo audio devices into a Bluetooth-enabled, wireless streaming machine through 3.5mm audio-out jack.
2. Work with any type and brand of device such as TV, PC, CD player, iPod, MP3/MP4 etc. up to 10 meters working range.
3. Easy pairing with Bluetooth stereo headset, headphones, speakers and other Bluetooth stereo audio enabled systems.
4. Adopt high sensitivity level, high performance chip. High performance Bluetooth 2.1 with A2DP for enhanced audio quality, allows you to enjoy the stereo music without wire restriction or watch TV quietly (not for answering calls).

How to Use

1. Connect the Bluetooth audio transmitter to any devices with 3.5mm audio port by 3.5mm-3.5mm audio cable.
2. Pairing: After the audio cable plug into the EP266T, the transmitter will be turned on automatically. Then pairing the transmitter with the BT headset or other BT enabled devices.
3. Connection: When the transmitter's red and blue LEDS flash alternatively, the Bluetooth audio transmitter will now be in pairing mode.

Specifications

1. Bluetooth Version 2.1+EDR (Class II)
2. Transmission distance: 10 meters
3. Bluetooth transmitter version: support V2.0, V3.0, V4.0
4. Unit size: 45* 45 * 28 mm

FCC WARNING

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

15.105 Information to the user.

(b) For a Class B digital device or peripheral, the instructions furnished the user shall include the following or similar statement, placed in a prominent location in the text of the manual:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The availability of some specific channels and/or operational frequency bands are country dependent and are firmware programmed at the factory to match the intended destination.

The firmware setting is not accessible by the end user.

The final end product must be labelled in a visible area with the following:

“Contains Transmitter Module 2ARV2EP266T-E02”
