Notes:

- *USB port can charge the devices directly when the speaker is connected with external power supply; when using the battery of the speaker, need to short press the “⚡” button for charging the devices (It increases the energy loss of the battery) and press the “⚡” button twice to charge disconnect.*
- *Do not use more than a 5V/ 2A fast charger. Otherwise it may damage the speaker.*
- *If the Bluetooth connection is interrupted by other electronic devices, re-connect to the speaker the same process as before.*
- *It is recommended to charge the speaker at least once in a month, which can significantly extend the lifetime of the battery.*

*** Turn on Bluetooth on the device you want to pair with the speaker. From the list of discoverable devices, select the speaker (“LS-BCX10”), and then press “pair” on your device to connect.**

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
