

Test model: bebird 1

bebird instructions

Check the manual before using the ear pick

Product parameters:

Product Name:	bebird
Product model:	bebird 1
Network standard:	IEEE 802.11b/g/n
Antenna :	Built-in IPEX antenna
Working frequency:	2.4G
Transmission:	rate up to 150Mbps
Image sensor:	CMOS
Working environment temperature:	-20~60 degrees
Battery duration is greater:	than 1 hour
Input Current:	DC 5V 500mA OR 1A
Lens diameter :	4.0mm
Best focal length:	1.5~2cm
Waterproof rating:	IP67 (lens / body)
Resolution:	1280*720

Precautions:

1. Before using this product, please observe whether your surroundings are safe, such as whether there are children running.
2. For your safety, please do not use this product to try to clean the earwax in the front part of the eardrum deep in the ear canal to avoid damage to the tympanic membrane.
3. Children are not allowed to use this product alone.
4. In order to quickly adapt to the working mode of the miniature camera, the position of the ear on the screen of the mobile phone is relatively fixed, and the image of the ear canal moves as the camera moves.
5. Do not use the micro camera in a liquid.
6. After each use of the ear, please clean the ear and the micro camera. However, it should be noted that if the earwax is located in front of the camera, do not use a brush or the like to remove the oil on the earwax from contaminating the camera lens; the earwax can be clear by blowing and shaking.
7. The storage box is divided into two layers, and the charging line is in the lower box.
8. The built-in rechargeable lithium battery protects the life of the lithium battery. If it is not used frequently, it must be charged once a month.

Instructions

The first step is to download the software: scan the QR code to download the "Hummingbird Ears" app and install the app.

The second step is to use the product: use the fingertips (do not use the nails) to press and hold the tail for 2 seconds to turn on the light. The indicator light is on, and the product will send a

“bebird” WiFi signal. This signal does not consume traffic.

The third step is the link signal: the phone enters the wireless settings link bebird (no need to enter a password) and then open the software to use.

Shutdown: After exiting the software, use the fingertips to hold the tail for 2 seconds to shut down.

Charging: Charging in the off state, the indicator light is on, and the indicator is off. The indicator light will turn red when the power is less than 30%, and the APP will automatically pop up to remind you of the charging.

Mobile phone scan this QR code to enter the page to download

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 5mm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter
