**Letter of Confirmation**  
**-Regarding disabling Zigbee function-**

We, the undersigned, hereby confirms that

1. the test sample for FCC supports Zigbee function alongside the BT LE function.
2. However the Zigbee function won't be used in the North American SKU of this model.
3. We will place an order to the semiconductor supplier for American SKU model and the semiconductor supplier, Telink will ship the chip which only can support BT LE function.
4. All of the Zigbee related function and Zigbee function itself will not be imbedded to semi-conductor from the first place.

Sincerely,

Name: Choi, Gyu Yeol  
Title: President
