Notice:

- * First time using, we suggest charging first for a better experience.
- * Precision components may get defective occasionally during delivery, please contact us for a better solution once battery issue occurred.
- * Remove Keymao from Bluetooth menu to reconnect if you have a problem connecting.
- * Make sure it gets fully charged to prevent from low battery notification if you wear to sleep. Please pay attention to the battery symbol on your phones.
- * The gray one is designed tighter for better sports performance. If you find it unfit, try the black one which is looser for a more comfortable experience.

Customer Support:

All our product comes with a 12-month warranty. If, despite our best efforts, we have overlooked a defect of any kind, please feel free to contact. [Find us on Facebook](http://www.facebook.com/Keymao) for better service and assistance.

Precautions:

- Please make sure the headphones are connected to each other before connecting the Bluetooth device.
- If there is no sound on one side, please remove the Bluetooth device, repeat the [pair wireless headset] step, and then connect the Bluetooth device.
- In the headset call mode, only one side can hear voice. This is normal.
- Remain clean & dry. Let dry for 48 hrs before turning on or charging if the headset get wet. Switch off if not in use. Do not store it with dead battery.
- If you fail in pairing for the first time, delete KEYMAO_DUO" from your Bluetooth menu for another try.
- Please watch out when using the headphones.
- The charging time is about 3 hours, please avoid long time charging.
- The system is automatically set to the maximum volume when the system is turned on. Please adjust the volume appropriately to avoid excessive volume which may affect your hearing.
- Normally, the working distance may be shortened if the devices were connected to 2.4G frequency.

Warranty:

- 90-day warranty for headwear against manufacturer defects.
- 1-year warranty for headset against manufacturer defects.
- Warranty void if headset has been tampered with, immersed in liquid, exposed to extreme heat, chemicals, electrostatic interference or dust.

(please check the earphones and the cover are fully fitted before use)

* If your head is too small to stay the headphones firmed,
use the headband to wrap it to keep it tight.

* To keep the headphones stay firmed, pull the headband on the back of your head higher.

* If your head is too small to stay the headphones firmed, use the headband to wrap it to keep it tight.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
