

Couple Battery Wireless

USER'S MANUAL for Model CCBW

Package Includes:

- Wireless Charging Pad
- Type-C USB Power Cable
- User Manual

IMPORTANT Please read before using this product

What is in the box

- 1) Wireless Charger X1
- 2) USB cable X1
- 3) Quick User Manual X1

Preparing to Charge:

- The Wireless charging Pad can charge Qi enabled smartphones.
- You can charge your smartphone with a protective case on it.
(Works with most cases up to 4mm thick)
- If your protective cases has metallic studs, magnetic clasps, or a magnetic plate, you should remove the case before placing your phone on the mount,
- Also ensure the protective case does not create distance between the charging pad and the back of the phone that is greater than 4mm.

Charging:

- Connect the Wireless Charging Pad using the included USB to micro USB cable.
- Once plugged in, the blue LED light informs you that the mount is powered and ready to charge.
- When placed on the wireless charging pad, the green LED lights up to indicate that the smartphone will automatically start charging..
- The green LED light indicates your smartphone is successfully charging.
- For optimum charging, place your mobile phone in the center of the charging pad.

Troubleshooting:

- No power:First make sure you plugged the micro USB cord into the correct ports.Then try using a different cables.
- Devices isn' t charging:Make sure your smartphone is in the center of the charging pad.Remove the smartphone and place it on the center of the pad.

Precautions:

- Medical Implants:Please maintain a minimum of 20cm safe distance between the Wireless Charging Pad(When powered ON)and any medical implants that can be affected by a magnetic field,such as pacemakers.
- Do not immerse in liquid.
- Do not place a magnet or any magnetically sensitive devices such as credit cards on the charging pad.
- Avoid placing metal or magnetic objects near the Wireless Charging Pad to prevent damage.

Detailed Instructions**Specification:**

The input Voltage:DC 5V 1A

Output Voltage|5V 1A (5W max)

Wireless charging distance:3 mm to 8 mm

Conversion efficiency:>70%

Charging methods:induction model

Working frequency:110-205KHZ

Technical Support: |

Please do not attempt to fix the product by yourself. If you are experiencing any problems with the product,please do not return it to the store you bought it from.You can contact our technical support representatives and they will assist you with any questions you might have.

FCC Notice:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
