FCC ID: 2AS7V-Y-HS15

Caution

Cleaning Instructions:

Please avoid using abrasive cleaners when cleaning this product.

Heat and Fire Safety:

Keep this product away from heat sources, such as cooking stoves or open flames.

Sunlight Exposure:

Avoid prolonged exposure of this product to direct sunlight.

Safe Disposal:

Never dispose of this product by incineration to prevent the risk of explosion.

Modification Warning:

Do not attempt to disassemble or modify this product, as it contains no user-serviceable components.

Weather Protection:

Do not use this product in rainy conditions.

Storage and Long-Term Care:

If you intend to store this product for an extended period, store it in a dry environment, and charge the headset at least once a month to maximize its lifespan. Keep it away from extreme temperatures and dust.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
