2ASAU-GTX2
Shenzhen Starmax Technology Co.,Ltd
31F, Building 2, Huasheng Longyue Tower,
Jinglong Community, Longhua Street,
Longhua District, Shenzhen, China.

1. Set Up and Get Started

Activate

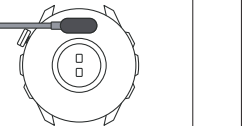

Please charge the watch to activate it before first use.

Follow these steps:

- Connect the magnetic charger to the USB power adaptor.
- Align the charger correctly with the watch's charging contact.
- Charge the watch for a few minutes until the screen turns on.

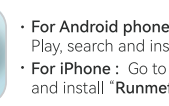

Note:

- Make sure the USB charging plug is at the same side as the watch crown.
- It is recommended to use a standard USB power source with an output of 5V-1A or above. Before charging, ensure to clean the watch's charging contacts to remove any sweat or moisture.
- After fully charging, please disconnect the watch from the charger.

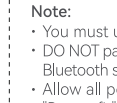

2. App Download and Connection

(1) App Download

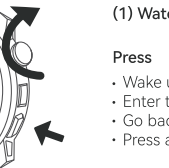

- **For Android phones**: Go to Google Play, search and install "RunmeFit".
- **For iPhone**: Go to App Store, search and install "RunmeFit".

Quick installation: Scan the QR code on the right to download "RunmeFit".

3.Operation Instruction

(1) Watch Crown/Button Function

Press

- Wake up the screen.
- Enter the menu from the watch face.
- Go back to the watch face.
- Press and hold to shut down or restart.

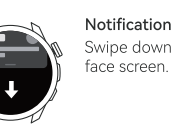

Scroll

- Toggle between screens.
- Navigate through menus.

Shortcut Button

- Press to start Workout quickly.
- Press and hold to activate SOS.

(2) Common Functions

Notification Center

Swipe down on the watch face screen.

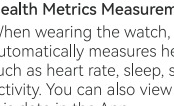

Control Center

Swipe up on the watch face screen to access the Control Center. Enable features like Silent Mode, Sleep Mode, Always-on Display, and adjust brightness and volume swiftly.

Screens

Swipe left or right on the watch face screen to switch quickly between the Suggestions, Activity, Heart Rate, Sleep, Weather, or Workout screens.

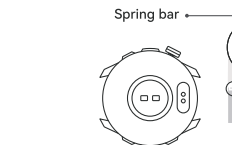

Health Metrics Measurement

When wearing the watch, it automatically measures health data such as heart rate, sleep, stress, and activity. You can also view and track this data in the App.

Change the Band

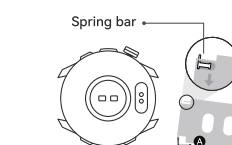

1. Remove the Band

- Lift the spring bar from the groove.
- Push and hold the spring bar as shown.
- Gently pull the band off.

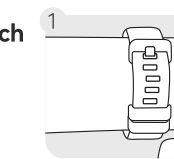

2. Install the Band

- Insert the pin at point "A" into the watch.
- Push and hold the spring bar as shown.
- Install the band to the watch and release the spring bar.
- Gently pull to ensure it's securely installed.

How To Wear the Watch

For more accurate measurement data, please attach the watch's sensor side to your skin. Leave at least a finger width between the watch and the wrist.

Precautions

- Do not replace the internal battery by yourself to avoid potential safety risks.
- Avoid forcing open the case, which may result in a short circuit and overheating.
- Keep away from the environment above 60 °C/140 °F to avoid damage to the battery leakage or explosion.
- This product meets the 3ATM waterproof standard, but is not recommended for use in bathing, diving or surfing, skiing, or activities involving heat, steam.
- Please note that water resistance may be affected if the product structure is damaged.

Help and Guide

1. For More Help?

- Go to Profile > Questions and Help in the "RunmeFit" app.
- Enter "help.runmeFit.com" in the browser.
- Scan the QR code to jump to the help center.

2. Product Manual

- Go to Device > How to Use in the "RunmeFit" app.
- Enter "help.runmeFit.com" to get the product manual.
- Scan the QR code to get complete product manual.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition, compliance with exposure requirements.
