3. The warranty period is subject to the invoice date and the date of purchase.
4. If the warranty period is exceeded or it is not free of charge, we will also serve you wholeheartedly.

### FCC Statement

This device complies with part 15 and part 18 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 and part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

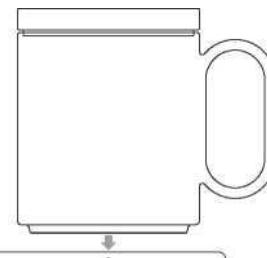

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

This device complies with Part 18 of the FCC Rules. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and any other radio device.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

(Comply with standard: EN303417 EN62311 EN301489-1 EN301489-3 EN60950)  
Please read the instructions carefully before using this product! This product is intended for use only in the home, office or similar location.

### Wireless heating warm cup instructions

After power-on, place the matching ceramics heating cup in the center of the base.

Name: Wireless heating warm cup  
Heating power: 20W  
Constant temperature: about 55 °C (more suitable for human drinking water temperature)  
Material: reinforced porcelain  
Heating method: wireless induction heating

LED indicator  
Turn on the machine: the light flashes three times  
Waiting for the machine: the light is not bright  
Power transmission: in the state of breathing light  
Protection: flashing lights  
Error message: the light is blinking

The wireless charger is equipped with a "wireless charging and heating adaptive switch", which can effectively prevent the metal body or the mobile phone from being heated and damage the mobile phone or burn the user, and the heat preservation cup can be automatically switched to the heating function.

Packing list: 1. Wireless charger 2. Adapter 3. Power cord  
Thank you for choosing our wireless heating and warming cup products. Please read this instruction carefully before use to understand the correct operation of the product!

### Wireless charger instructions

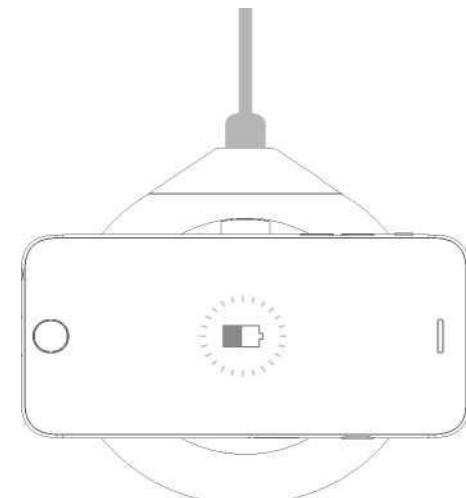

The indicator light shows the status of the breathing light and is in a wireless heating state.

Applicable equipment  
Applicable to the company's supporting special mugs, coffee cups, tea sets, etc., can not be heated for ordinary cups.  
Safety warning  
1. Do not disassemble or modify this product yourself.  
2. Please keep the surface of the base clean. If there is any water, please wipe it with a dry towel or paper towel and use it.  
3. To clean the charger, make sure that no power is plugged in.  
4. The ambient temperature is maintained at 0-45 °C  
5. It is forbidden to place magnetic materials such as coins and keys or bank cards on the charger, which will affect normal work.

Place the phone in the middle of the wireless charger and the breathing light flashes to the charging state.

Name: Wireless Charger  
Applicable models: MC-801, MC-802  
Input: 12V/1.5A Charging output: 5V/1A 9V/1.2A 12V/1.5A  
Transmission distance: less than 6mm  
Charging efficiency: about 83%  
LED indicator  
Turn on the machine: the light flashes three times  
Waiting for the machine: the light is not bright  
Power transmission: in the state of breathing light  
Protection: flashing lights  
Error message: the light is blinking

Place the phone in the middle of the wireless charger and the breathing light flashes to the charging state.

Applicable equipment  
1. Built-in wireless charging receiver (iphone8, iphoneX, Samsung S6, etc.).  
2. Equipment with a protective cover for the receiving device (iphone7 series, etc.) must be installed.  
(Note: These receivers must comply with the WPCQI standard for compatibility)  
safety warning  
1. Do not disassemble or modify this product yourself.  
2. Keep the charger and receiver away from water and other liquids.  
3. To clean the charger, make sure that no power is plugged in.  
4. The ambient temperature is maintained at 0-45 °C  
5. It is forbidden to place metal materials such as coins and keys or magnetic materials such as bank cards on the charger, which will affect normal work.

Packing list: 1. Wireless charger 2. Adapter 3. Power cord

Thank you for choosing our wireless charger products. Please read this instruction carefully before use to understand the correct operation of the product!
