### 3. Pairing and Connecting

- A. In the off state, long press the multi-function button for 5-8 seconds, the headset enters the pairing state, and the red and blue lights flash alternately.
- B. Turn on the Bluetooth of the mobile phone and click Search. When "Elite Ultra 2.0" appears, click the pairing connection successfully, and the phone displays that "Elite Ultra 2.0" is connected
- C.** You can use the Multi-function button, Volume Plus button, Volume minus button, and Mute button on the Bluetooth headset to control the answering, hanging up, playing/pausing of music, up-and-down music, volume plus or minus, and microphone mute functions.

#### 4. One drag two use method

- A. The mobile phones connected to Elite Ultra are divided into two types: A and B;
- B. Connect to host A first, turn on the Bluetooth headset to enter the pairing state, turn on the Bluetooth function of the mobile phone, search for "EliteUltra2.0" and tap Connect. After the connection is successful, turn off the Bluetooth function of host A, and the EliteUltra2.0 automatically enters the pairing mode.
- C. Use host B to connect to Elite Ultra2.0. After the connection is successful, enable the Bluetooth function on host A and click Elite Ultra2.0 for connection (some mobile phones may have the auto-connect function).
- D. Please note that only one machine can play music at the same time between machine A and machine B that has been successfully connected. The first machine can play music. If the other wanted to play, it could only pause or turn off the music from the previous one.

#### 5. Use of wired earphone

- A. Plug one end of the original four 3.5mm audio cables into the audio port of the headset and the other end into the audio port of the computer.
- B. The computer plays music or makes Internet calls. You can listen to the music through the headset and make calls through the MIC of the headset.

## 7. Charging

When the Elite Ultra 2.0 battery is low, the red light blinks. Please charge it immediately. The charging time is about 2 hours.

Charging connection

Please connect the Type-C head of the Type-C charging cable to the "Elite Ultra 2.0" charging port, and the USB head to the USB charger (car charge, travel charge, computer USB, etc.).

Mode of decoding	AAC SBC
Built-in battery	420mAh /3.7V
Charge time	2 hours
Standby time	300 hours
Time for music	30 hours
Talk time	20 hours

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L' appareil ne doit pas produire de brouillage;
- (2) L' appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d' en compromettre le fonctionnement.
