Universal Mobile Wireless Charging Mount Chargeur support voiture sans fil universel

- Charging mount for Qi-enabled smartphones
- Fast Charge® 10W
- Automatic smart touch sensor
- Non-slip rubberized coating
- Includes vent mount, dash/window mount,
- DC charger with cable

Owner's Guide

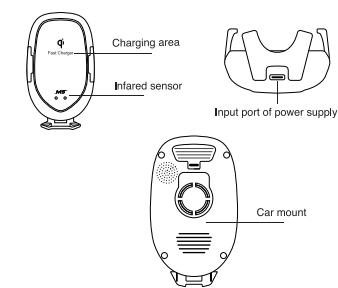

ZQ-CC

CE FCC RoHS

Product Introduction

This wireless charging pad is an intelligent product. Its simple design makes it compatible with any mobile phone with the Qi standard. Charging does not require a plug, making charging more convenient. The wireless charging process is safe and efficient.

Product Outline

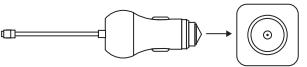

Applicable Devices

1. Devices with built-in wireless charging receiver (Nokia® 1520, LG®, Nexus® 5 and more).
2. Devices with reserved wireless charging interface beside its battery (Samsung® Galaxy S5, S7, S8+, Note 6, Note 7, Note 8, etc.).
3. Devices with wireless charging receiver in its protection case (iPhone® 6, iPhone® 7, iPhone® 8, iPhone® X, etc.).

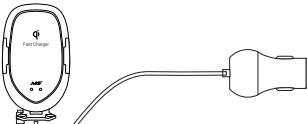

Note: All devices must be Qi standard.

Instructions

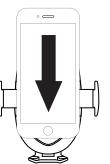

1. Insert the 12v plug end of the charging cable in to the 12v outlet, as shown below.

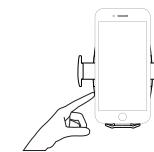

2. Insert the Type-C tip of the USB charging cable into the Type-C port of the wireless charger. The LED indicator illuminates to indicate good connectivity.

3. Place the phone on the wireless charger. Make sure that the phone is properly positioned on the charging area of the wireless charger. The LED indicator will illuminate while the phone is being charged.

4. To release the phone, push the button on the left side of the mount.

Standard Accessories
Wireless car charger
Car charger with cable
Air vent clip
Car mount
User Manual

Product Specifications

Model: MBS04110
Input: 5V 2A/9V 1.67A Max
Output: 5V 1A/9V 1.67A
Distance: <4mm
Efficiency: 70% - 82%

Size: 120mm * 72.5mm * 67mm

Attention

1. Please keep the charger away from water or other liquid.
2. If the charger needs to be cleaned, please make sure it is not connected to any power supply.
3. For use in temperatures from 0-45°C.
4. People with a pace-maker should consult a doctor before using this device. Maintain a distance of 50cm from the wireless charger.
5. Do not place the magnetic card between the phone and charger surface when charging.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

RF Exposure: A distance of 15 cm shall be maintained between the antenna and users, and the transmitter may not be co-located with any other transmitter or antenna.
