4. Cleaning and Maintenance

⚠ • Disconnect the printer from the power supply before starting any cleaning or maintenance.
• In case of blank prints, blurry text, and missing prints, please try cleaning the printer.

01 If you have just finished printing, wait for at least 30 minutes for the Print Head to cool down completely.

02 Use a cotton swab dipped in alcohol or a dry alcohol-soaked cotton ball to gently wipe the Rubber Roller and the Print Head left and right 5 times each, removing dust and stains from the surfaces.

**03** Wait 5-10 minutes for the alcohol to evaporate completely before closing the Top Cover and completing the cleaning process. You may now continue using the printer.

⚠ **Print Head Warning:** HOT component! Touching it when it is hot can cause burns to your fingers. Please wait for at least 30 minutes after turning off the power before touching it.

5. Charging Instructions

1. Please prepare your own power adapter (DC 5V⎓2A) with a Type-A port.

2. Insert the Type-C end (flat end) of the USB cable into **M08F Plus**'sType-C Charger Port and plug the Type-A end (wide end) into the Type-A port of the power adapter.

3. After completing the connection and plugging it into the power outlet, check the status of the printer's indicator light. When charging, the indicator light will flash green.

4. Please charge the printer for at least 20 minutes for quick use. Full charging will be completed in four hours or until the indicator light stays green.

5. As the printer may heat up during charging, avoid placing it on materials such as cotton or linen.

6. Once the battery is fully charged, please unplug the charger promptly.

⚠ Avoid using the printer while charging.Using the printer while charging may lead to reduced charging speed, compromised print quality, and shortened battery life.
