Important Safeguards

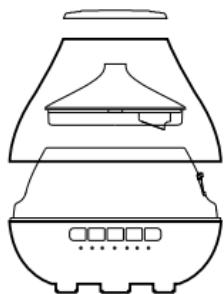

This product is designed for household use only - When using electrical appliances, basic safety precautions should always be followed, including the following:

1. READ ALL INSTRUCTIONS.
2. To protect against fire, electrical shock and personal injury, do not immerse this appliance, including cord and plug, in water or other liquid.
3. Close supervision is necessary when any appliance is used by or near children.
4. Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
5. Do not operate any appliance with a damaged cord or plug or after the appliance
6. The use of accessory attachments not recommended by the manufacturer may result in fire, electric shock or injury to persons.
7. Do not use outdoors.
8. Do not let cord hang over edge of table or counter, or touch hot surfaces.
9. Do not place on or near a hot gas or electric burner or in a heated oven.
10. Do not use appliance other than for its intended use, as described in this manual.

malfunctions or has been damaged in any manner. To avoid hazards, return the appliance to Merkury Innovations for examination, repair or adjustment.

Getting ready.

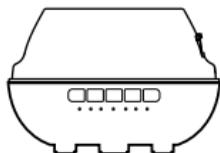

1. Remove the outer cover

Water level :
50ml(min)~200ml(max)

2. Add purified water

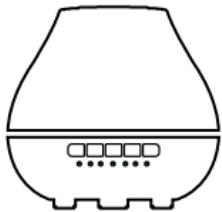

4~6 drops
for 200ml water

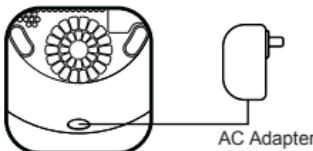

3. Drip the essential oil

4.1

Starting the diffuser

Bottom View

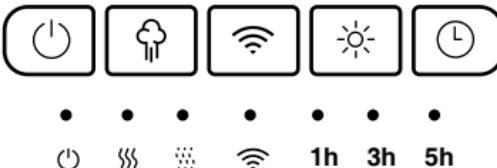

4. Cover the water tank/outer cover

5. Plug the AC Adapter into power outlet and start it

4.2

Using the Controls

Connect the diffuser

- Press & hold “” for 5 seconds to set until the indicator light flashes quickly to put the diffuser in pairing mode. You can now pair the diffuser with the Geeni App.

Operate the diffuser

- Press “” to turn the diffuser on.
- Press “” to start diffusing continuously - the LED above “” will turn blue; press this button again, it will mist intermittently - the LED above “” will turn blue; press the button once again, it will stop diffusing.
- Press “” to set the mood lights to one color; press this button again and the mood light will turn off; press it once again and the mood light will cycle through different colors.
- Press the “” button to set the diffuser to timed settings. The default timer is 1 hour. Press the button again to change the timer to 3 hours. Press a 3rd time to set to 5 hours. Press once again and the timer will be turned off.

NOTE : DO NOT open the outer cover or fill with water/oil while misting

5

Cleaning

For safety, it is suggested to clean the diffuser every 5-6 days, or after 9-10 times of usage. The cleaning procedures are as follows:

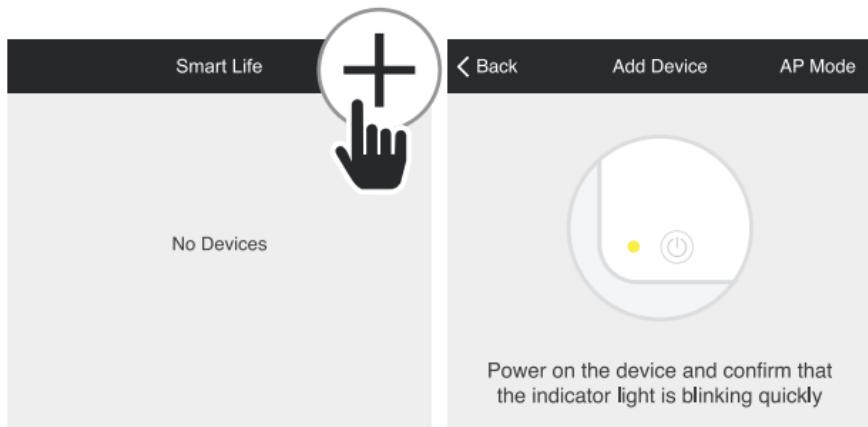

- Disconnect the adapter from the AC power source, or turn off the power source.
- Place the diffuser on a flat and stable place such as table to avoid leaking water. Remove the outer cover and the water tank cover.
- When pouring out the water, keep the mist nozzle up. Don't let any water flow inside the circuitry.
- Clean the ultrasonic vibration plate at the bottom of the water tank with a cotton swab; clean the outer cover with cloth or cotton swab.
- When there is dirt, such as aroma or oil, in the cover of the diffuser or the water tank, please clean it with a dried cloth with kitchen soap and warm water.
- After cleaning, please add purified water into the water tank, then power on the diffuser for 30 minutes, drain the water out and dry the water tank. You can store the diffuser after it is dried out.
- When there is dirt on the mist nozzle, please remove the outer cover, clean it with a neutral detergent. After it is dried, you can use the diffuser again.

NOTE : Neutral detergent is strongly recommended for cleaning.

Any detergent with chlorine, acid, enzyme left inside the tank may produce hazardous effects and maybe harmful.

6

Add device.

STEP 2.

In the Smart Life app, on the top corner of the Devices screen, click (+).

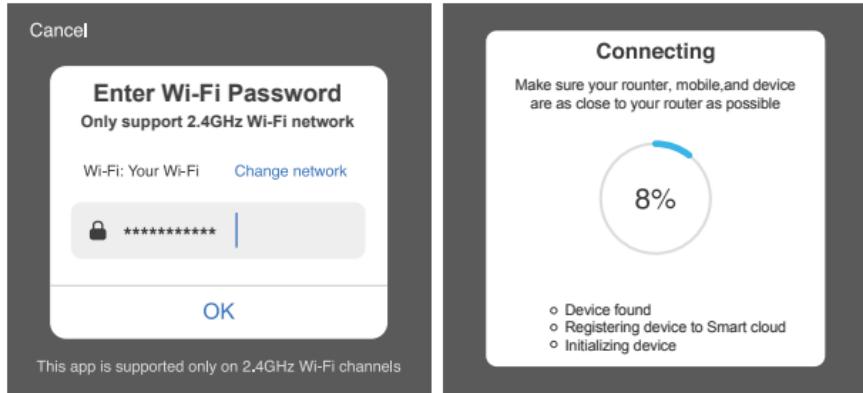

Choose "Home Appliance"

Humidifier

STEP 3.

Make sure the indicator light on the device is flashing rapidly blue, indicating the device is ready to connect using Easy Mode. If not, press and hold the Button for 3 seconds until the indicator light is flashing rapidly, then press "confirm indicator rapidly blink".

STEP 4.
Enter your Wi-Fi network and password.

STEP 5.
The Smart Life app will try to connect your device.

*If the connection fails, try to connect using AP Mode.

NOTE: Smart Life can't connect to 5GHz networks.

Frequently Asked Questions

1. Can I share with family and friends?

Yes, you can share your device with family and friends who will have access to control your bulbs, plugs, cameras, and other devices. In this app, press the Profile button and click on the “Device Sharing” button, and you will be able to give or revoke sharing permissions. In order to share, the other user should already have downloaded the Smart Life app and registered a new account.

2. Can I group multiple Smart Life devices together?

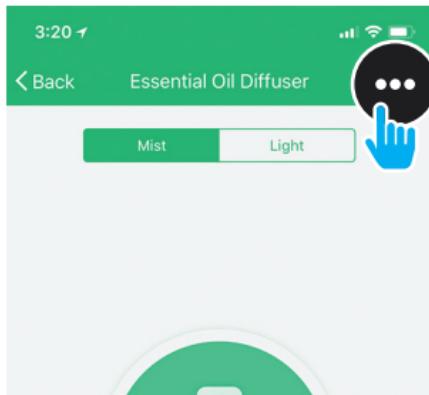

Yes, you can group multiple devices of the same type together, by room, location, or however else you want. The same devices can be in multiple groups. (For example, create a group for “Bedroom” and another group for “Entire House”, and your Bedroom lights can be included in both groups). From your main device list, click on one of the devices you want to group, press the “...” button on the top right for advanced settings, and click Create Group. You’ll then be able to choose which devices you’d like to group together and will be able to rename them.

3. How Many Devices Can I Control?

Smart Life’s app can control an unlimited amount of devices in an unlimited amount of locations. Your router may have a limit of how many devices can be connected to one router.

4. My Smart Life device has a funny name. How do I rename it?

From your main device list, click on one of the devices you want to rename, press the “...” button on the top right for advanced settings, and click Modify Device Name (or Modify Group Name, if applicable). You’ll then be able to choose a more familiar name.

Device Name	Essential Oil Diffuser >
Device Location	>
Device Info	>
Create group	>
Check for firmware update	>

[Remove Device](#)

5. The device appears offline or unreachable, what should I do?

Check the light switch and make sure that it's switched ON. The light bulb requires an "always-on" power supply to operate properly.

Make sure your Wi-Fi router is online and in range.

Make sure you have the latest Geeni functionality by clicking "Check for firmware update" in your device settings.

6. What's the Wireless Range?

The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.

7. If my Wi-Fi/Internet goes down, will Smart Life still work?

Smart Life products need to be connected to Wi-Fi in order to use them remotely.

Troubleshooting

Cannot connect to your Wi-Fi network.

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

Reset the device

Reset once (press & hold reset button) to reach Easy Mode, which is the primary way the app will try to connect. (When in Easy Mode, you'll see the LED flashing quickly, 2x per second)

Reset again (press & hold reset button) to reach AP, which is the Backup Mode to help connect.

System Requirements

- Mobile device running iOS 8 or higher or Android™ 4.1x or higher
- Existing Wi-Fi Network

Technical Specifications

- Power: 10W
- Capacity: 200ml
- Timer: 1/3/5 hour

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter
