

APPENDIX 1- EUT PHOTO

Photo 1 (For model xINFERNO-S)

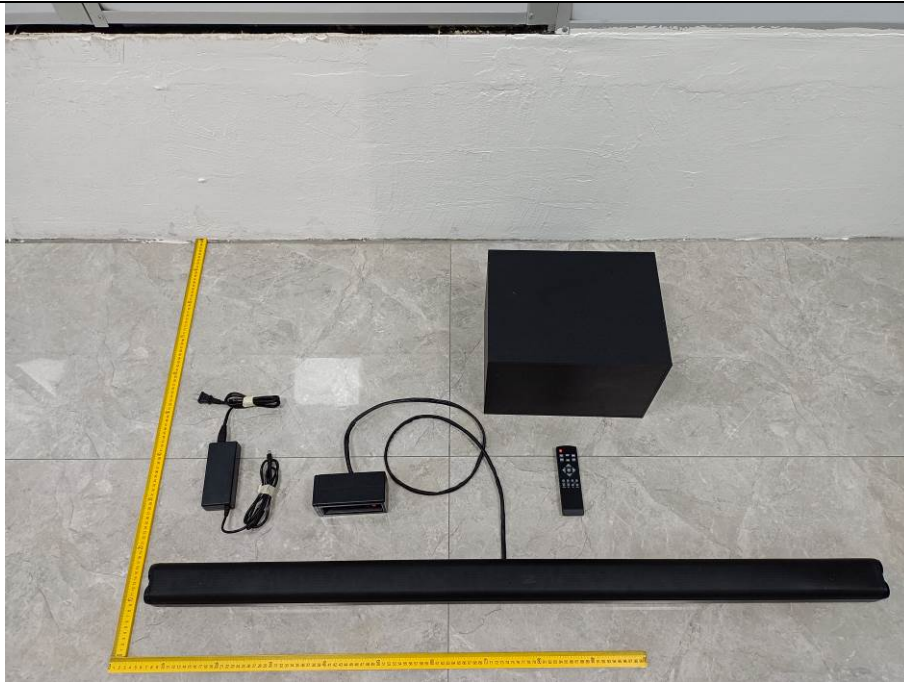

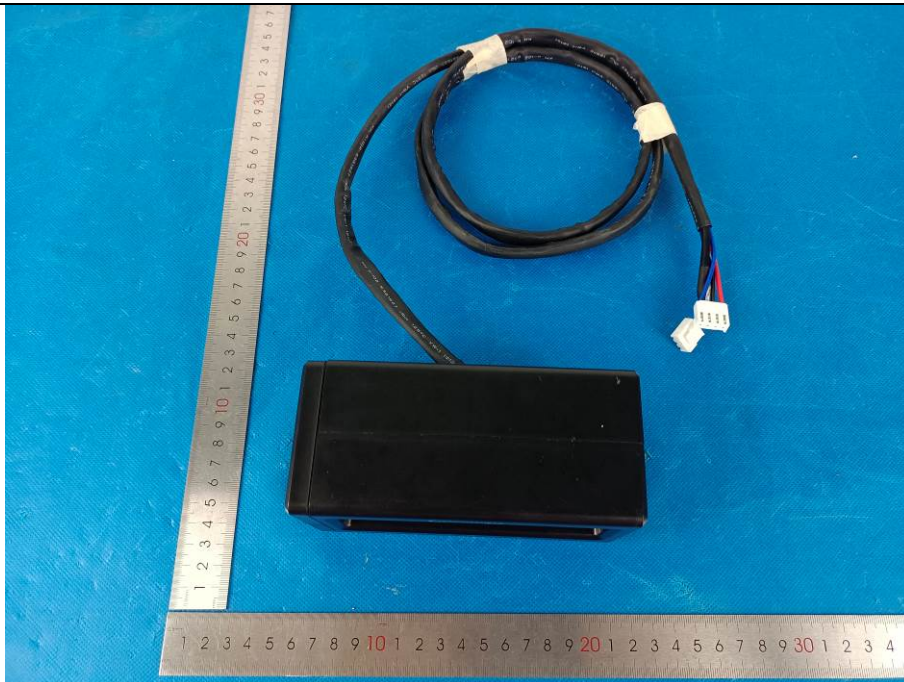

Photo 2

A black rectangular electronic device, possibly a sensor or actuator, is shown next to a ruler for scale. The device is connected to a black cable that has a white multi-pin connector at one end. The ruler indicates the device is approximately 10 cm wide and 5 cm high. The cable is coiled and secured with two white tape ties. The entire setup is on a blue textured surface.

A black rectangular car stereo unit, identified as a 'technical pro 100W' model, is shown from a rear-three-quarter perspective. The unit features a variety of input ports on its back panel: a DIN connector, a USB port, an AUX input, an optical input, and a pair of RCA connectors (labeled 'RCA IN SUBWOOFER'). A power switch with a red button is also visible. The unit is placed on a blue surface, and a ruler is positioned horizontally below it for scale. The ruler shows measurements in inches (0 to 20) and centimeters (0 to 20).
