

CL-10 Model Differences Letter

The CL-10 family of products for North America market is composed by:

CL-10 3G

CL-10 LTE VZW

The only difference between them is the integrated modem:

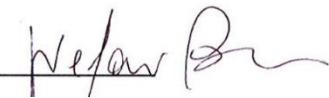

Ublox SARA-U201 for **CL-10 3G**

Ublox LARA-R201-Verizon for **CL-10 LTE VZW**

The original radio module identified as FCC ID: XPYLILYW1 IC: 8595A-LILYW1 has had no other changes; RF performance and antenna configuration is the same as original module.
