16. Instructions For Using Non-marking Stickers

Example 1: Stick a piece on each side. You can then fix it in place.

Flat

Perforated

The perforated one is used on the type-C cable.

Example 2:

Stick a piece on each side, and a piece on each top and bottom in the middle

Flat

Perforated

The perforated one is used on the type-C cable.

17. Attentions

Recommended	Original Android phone charger	OK
Power bank <td>OK</td> <td></td>	OK	
Car charger <td>OK</td> <td></td>	OK	
Computer/ TV USB <td></td> <td></td>		
Car disk interface <td>2. It will cause damage to the USB interface</td> <td></td>	2. It will cause damage to the USB interface	
Non-standard phone charger <td>1. Burn out the chip and permanently damage the screen</td> <td></td>	1. Burn out the chip and permanently damage the screen	
Modify USB interface <td>2. Short, fire and other risks</td> <td></td>	2. Short, fire and other risks	

1. For stronger: Fold the front of the screen inward to avoid excessive bending, do not roll the front outward excessively, which will easily lead to cracking of the adhesive surface of the screen.

2. Do not place heavy objects on the screen.

3. Please keep this product away from children to prevent accidental ingestion.

18. Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

Change or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This device and its antenna(s) must not be co-located or operated in conjunction with any other antenna or transmitter.

FCC Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operated in conjunction with any other antenna or transmitter.
