

SITERWELL ELECTRONICS CO., LIMITED

Declaration

Here we make the following declaration about the thermostat model GS368/GS368M:

1. GS368/GS368M thermostat including the backplane is a complete whole, the backplane has very important control components for work, the device can not work in the case of detachment from the backplane.
2. The nameplate is permanently marked on the thermostat with a laser engraving that cannot be erased and is easy to see at the time of purchase.
3. The two are linked together in a very strong way and cannot be easily dismantled, unless the equipment is no longer used and needs to be removed together, otherwise the equipment, including the back plate, is a complete and permanently linked whole.

Note: See internal photos for details.
