Using Your Earphones

1. Charge the headset

Before charging, it's best to turn off the headset. Insert the Micro 5PIN USB port of the charging cable to the earpiece jack, the other end of the USB port into the USB charger to start charging.

The headset red LED stays on means it is charging. When fully charged, the Red LED will be off and Blue LED stay on.

The LED flashing red when battery level is low.

Use the included USB cable to charge your Earphones. Make sure they are fully charged before first use.

To preserve battery lifespan, fully charge at least once every 45 days.

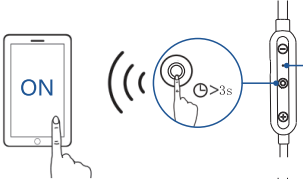

2. Turn on the headset

When the headset is off, press and hold the MFB for 3 seconds, the headset will prompt for "Power ON" and with Blue LED flashing.

3. Turn off the headset

When the headset is on,press and hold the MFB for 3 seconds, the headset will prompt for "Power OFF" and with Red LED flashing once.

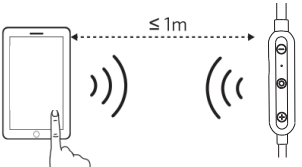

Earphones will automatically turn off after two minutes if no device is connected.

4. Pair with your device

① Please keep your headset and mobile phone as close as you can, within 1 meter.

② Press and hold MFB for 3 seconds to turn on the headset, it will prompts "power on" with Blue LED flashing rapidly when headset is ready to pair.

③ Turn on "Bluetooth" in the setting of your mobile phone and find headset name "Lectronic NB" .

④ Choose "Lectronic NB " from device list, it gets connected with your mobile phone automatically. The headset will prompts "connected" and the Blue LED stay steady on.

LED Indicator	state
Rapidly flashing blue	Pairing mode (ready to pair)
Steady blue	Connected to a device

When turned on, Earphones will automatically connect to the last connected device if available. If not, Earphones will enter pairing mode.

5. Controls

Answer / end call

When there is incoming call, press MFB once to answer, or just operate on your mobile phone.

Press the MFB to hang up calls, or by direct hang up your phone call.

Reject call

When there is incoming call, press MFB for 1 second then release to reject the call, or just reject it on your mobile phone.

When there is an incoming call while playing music, music automatically pauses to allow you to answer/ reject the call. Once the call is ignored or ended, the music resumes.

Transfer a call between headset and mobile phone

During a call conversation, press MFB for 1 second then release to have the call transfer between phone and headset.

Activate voice dial

In standby mode,press the MFB for 1 second then release to activate voice dial.

This function can work only if your mobile phone support voice dial function.

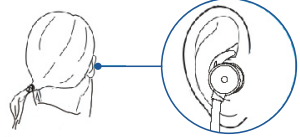

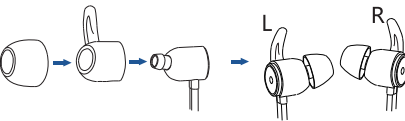

Music control

During music playing, press MFB once to pause the music, and press once again MFB to play.

During the call or listening to music, short press "+" or "-" button to adjust the volume.

During music playing, long press "+" for 2 seconds to skip to the next song; long press "-" for 2 seconds to skip to the previous song.

Wear your earphones
