

210*290mm-正面

Operating Instructions
Mobile rechargeable led headlight with Bluetooth speaker
Item # GWL-208T

SAFETY INFORMATION

1. Carefully read these operating instructions before using the device.
2. Do not use the light if it is damaged or danger of death.
3. In case of damage, please contact your dealer or refer to the specified service address.
4. Do not look directly into the light.
5. The device is not suitable against spray water. Do not immerse the light in water or any other liquids that risk of explosion and fire.
6. Keep the working light out of reach of children. Children are not aware of the risks imposed by electric currents.
7. Do not use the working light in potentially explosive atmospheres risk of death.
8. To charge the batteries, only use the provided power supply unit.

SETTING UP/ATTACHMENT OF THE LIGHT
The fitting angle of the light can be adjusted as necessary by means of the folding bracket. To do so, loosen the wing nut screws and re-tighten them after adjustment.

The light can be mounted on a tripod/stand included in package, pls contact your agent if necessary!

SWITCHING THE LIGHT ON/OFF
Use the ON/OFF switch to turn the light on. The light is now lit with 100% brightness. Press the switch twice to set the brightness to 50% and then 10%. This way, the lighting duration is respectively extended. To switch off the device, press the ON/OFF switch again.

BLUETOOTH SPEAKER
To use the speaker function, press the Bluetooth switch with the Bluetooth symbol on the back of the device. The LED over the Bluetooth symbol lights up.

Switch on the Bluetooth function on the smart phone: the light is displayed under "Gardner Bender GWL-208T" in the selection list. Afterwards, activate "Gardner Bender GWL-208T" on the smart phone. The device will produce 2 beeps, it means Blue tooth successfully connected with your smart phone.

Any music on the smart phone can now be played via speaker of the light. The volume is controlled with the volume buttons.

To terminate the connection, deactivate "Gardner Bender GWL-208T" on the smart phone. The connection can also be terminated by switching off the Blue tooth function via the Bluetooth switch of the light/without acoustic signal.

BATTERY STATUS INDICATOR
Indicates the current battery charge when the light is switched on. If all 4 LEDs are lit, the battery is fully charged. If the battery is almost empty, the LED light flashes 5 times and the battery status

TECHNICAL DATA

LED	40-1500 LED
Model	GWL-208T
Luminous flux	2200LM
Switch setting	100% / 50% / 10% / off
Rechargeable battery	Li-Polymer 3.7V 2200mAh 8.5W battery
Operating time:	3.5/15h (100%/50%/10%)
Charging time:	5h
Charging port:	USB 5V Max 2000mA
Lamp charging input:	12V DC Max 1000mA
Power bank:	USB 5V Max 2000mA
Power bank charging duration:	10h (100% charge) 3h at 2A
Power of speaker:	2 x 3W
Frequency band:	2.4GHz
Operating frequency:	2400MHz-2480MHz
Max. Transmitting power:	0.4dBm
Temperature range:	-10°C - +40°C

210*290mm-反面

CONTROL ELEMENTS

A	ON/OFF switch
B	Bluetooth switch
C	Battery status indicator
D	Power bank/USB charging port
E	Charging port
F	Power connector

Incorrect disposal of batteries is harmful to the environment!
Batteries must not be disposed of in household waste. They might contain toxic heavy metals and other substances that are harmful to the environment and to hazardous waste treatment. Dispose of exhausted batteries at your local collection points.

FCC ID: 2AB7U This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. There is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).
