Attention

Q1: How to download the app.
A1: If you receive the product,In order for you to use the latest features of this Smart lock,It is recommended to search for "OKLOK" in google play or app store to download the latest version of the software. This is more perfect to use.

Q2: Currently only registered accounts are allowed to register via email. Enter the email address and to get the verification code.
A2: Please connect to the network (WiFi or cellular network), restart the software and try again.

Q3: If the verification code is sent successfully, the mailbox will not receive the verification code.
A3: Because app@oklock.net is the address of the mailbox that is often used for registration and reset,May be defined as an ad mailbox, which can be found in the junk mailbox

Q4: After installing the app, you need to get camera permissions and get the location. Get contacts. etc.
A4: This is a normal prompt. It can also be disabled. Scanning the QR code requires camera permission.Unlocking will record the time, and sharing it with friends will get the contact.

Q5: After the fingerprint is successfully registered, the fingerprint cannot be locked.
A5: When registering, please use the same thumb to take 6 fingerprints according to the prompt.

Q6: How long does this battery last?
A6: This lock is a low-power 3C product. You must touch the fingerprint head with your thumb before unlocking.Activate BT and devices,After the lock is completed, it will enter the sleep state within 3-5s.

■FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following
two conditions: (1) This device may not cause harmful interference, and (2)
this device must accept any interference received, including interference
that may cause undesired operation.
This equipment has been tested and found to comply with the limits for a
Class B digital device, pursuant to part 15 of the FCC Rules. These limits
are designed to provide reasonable protection against harmful interference
in a residential installation. This equipment generates, uses and can radiate
radio frequency energy and, if not installed and used in accordance with the
instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular
installation. If this equipment does cause harmful interference to radio or
television reception, which can be determined by turning the equipment off
and on, the user is encouraged to try to correct the interference by one or
more of the following
measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to
which the
receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Caution: Any changes or modifications not expressly approved by the party
responsible for compliance could void the user's authority to operate the
equipment.
This equipment complies with FCC radiation exposure limits set forth for an
uncontrolled environment. This transmitter must not be co-located or
operating in conjunction with any other antenna or transmitter.
This equipment should be installed and operated with minimum distance
20cm between the radiator&your body.
