| <p><b>Solder<br/>Board-Component<br/>View 1</b></p> |  <p>A photograph showing a small blue electronic component (likely a microcontroller or IC) soldered onto a blue printed circuit board (PCB). The component is positioned near a corner of the board. A black L-shaped ruler is placed next to the component for scale, with markings in millimeters. The background is a light blue textured surface.</p>                                                        |
| <p><b>Antenna View</b></p>                          |  <p>A photograph showing the same blue electronic component from a different angle, highlighting the antenna area. A red rectangular box is drawn around the component, and a red line points from a label 'BT Ant.' to this box. A black L-shaped ruler is also present for scale, similar to the first view. The background is a light blue textured surface.</p> <p data-bbox="481 1774 756 1832">BT Ant.</p> |
