Our customer service staff is online 7/12 hours to provide you with the best solution.

FCC COMPLIANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference, and
- 2) this device must accept any interference received, including interference that may cause undesired operation.

● 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

● 15.105 Information to the user.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:² Reorient or relocate the receiving antenna.

- ▶ Increase the separation between the equipment and receiver.
- ▶ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

For USA: The frequency stability of all transmission frequencies of U-NII-1, U-NII-3 meets the requirements of 47 CFR FCC Part15.407(g), and the manufacturer declares that their transmission is maintained at Band U-NII-1, U-NII-3.

HDMI STATEMENT

PACKAGE LIST

Android Car TV

Big Bracket

Small bracket

DC Adapter

HDMI Cable

Cigarette Lighter Power Cable

Manual

Plastic Buckle

【Tip】 Please check the product package carefully, if any accessories are missing, please contact our after-sales customer service by email for replacement.

INSTALLATION STEPS

Step 1: Lift retention button A (Figure 1). Align small bracket with bottom notch on display backplate. Slide the bracket to desired position and release button to lock.

Step 2: Press the B and C buttons (Figure 1) to expand the big bracket arms. Select compatible adapter clip for your car's headrest post diameter (10.2mm, 11.2mm, 12.2mm, 12.9mm, 14mm, 16mm), and snap selected clip into inner bracket channel (Figure 2).

Step 3: According to the distance between the two rods of your car's headrest, press both ends of the big bracket and fix it to the car's headrest.

Step 4: Insert the display screen into the hole of big bracket on the headrest, and push the switch to the locked position to complete the installation.

【Note】 There are unlocking and locking positions on the big bracket, please lock it in time after installation to protect the safety of the display screen.

SETUP

1. WiFi

1. Via WLAN (router)–Turn on WiFi and connect WiFi.
2. Share hotspots via cellular data.

2. Bluetooth

- ▲ Turn on Bluetooth and connect your Bluetooth device. Such as headphones or Sound Bars

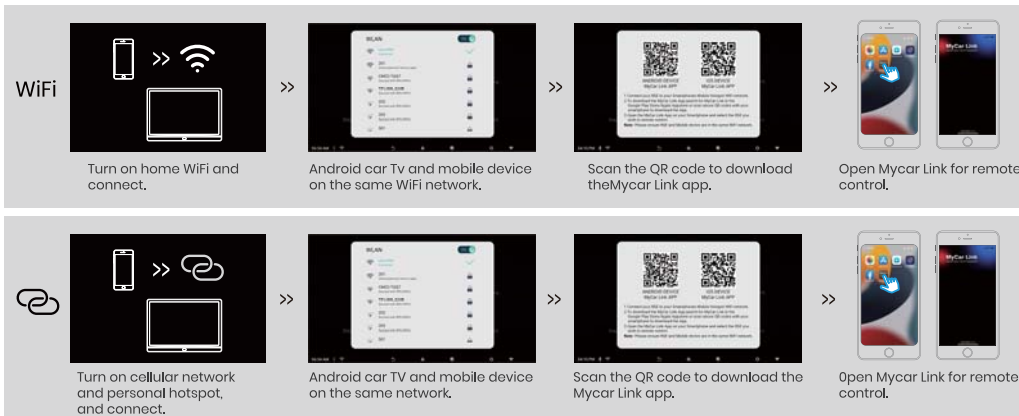

[NOTE] If when you don't need to use wifi or bluetooth, it is recommended that you choose to turn them off.

3. APP Link

APP LINK is a function that allows you to control this Android Car TV wirelessly from your cell phone. (Extends your phone as a remote control).

■ How to establish a connection between an Android car TV and a mobile device?

【Tips】 Mycar Link app can be downloaded from Apple Appstore / Google Play Store. When connecting, please ensure that the Android Car TV and the mobile device are on the same network to establish a connection.

4. FM Transmit

▲ Turn on the FM transmit, press the ◀ or ▶, turn to the previous or next page, once the frequency has been selected tune the vehicle radio.

▲ There are total 5 FM Channel pages containing frequency from 88.1~107.90MHz in 0.2MHz step.

▲ FM Tips : First, turn on the device FM, tune to a channel with no local programs, and tune the FM of the car to the same channel. The sound will be transmitted through the car stereo.

【INFORMATION】 For best result , select a station with minimal background noise or existing broadcast in your area , the best method to do this is to first turn the FM transmitter feature OFF , and then check the following stations one by one to look for the one with least interference or existing broadcasts—88.1, 88.3 , 88.5..107.7 , 107.9 . Ideally you should find a station with a clean " white noise " .

Set this as one of your pre-sets on the car's stereo , then turn ON the transmitter and adjust the frequency on the Android car TV to match this number.

5. Display/Volume

▲ By pressing the "☐" "☀" and "-" "+" to control the brightness and volume respectively.

【Tips】 When you turn on "FM Transmit", the display will lose the sound. Therefore, if the display needs to play sound, please turn off "FM transmit".

Product Size	14.5*1.18*10.2inch
Product Weight	3.4lb

PRECAUTIONS

- Screen Protection

To protect the display from damage, do not use a ballpoint pen or similar tool with a sharp point to manipulate the display.

- Clean and Wipe

When cleaning the touch screen, turn off the display first, and then wipe it with a soft cleaning cloth. Do not use cloths made of hard, chemical or oily materials (alcohol, benzene, etc.), which may damage or distort the surface of the screen.

- Troubleshooting

Do not disassemble or repair the system if there is any malfunction with the display or if there is any doubt about its use. Please contact our after-sales staff directly, we will help you at any time.

- Warm Reminder for Outdoor Use

If the vehicle is parked in a very cold or very hot place, you may see a black screen with distorted images.

When the temperature of the unit returns to the normal operating range, the system will return to normal. This may take over an hour, depending on the temperature.

- About the screen

When the screen is at rest or no operation, it will go to sleep and consume less power.
