

Test Setup Photographs

1. Transmitter Radiated Emissions

1.1. Radiated Emissions: 9 kHz to 30 MHz @ 3 m

1.1.1. Antenna 1 EUT Laying

Picture 1 Radiated Test Sample-9 kHz to 30 MHz EUT Laying

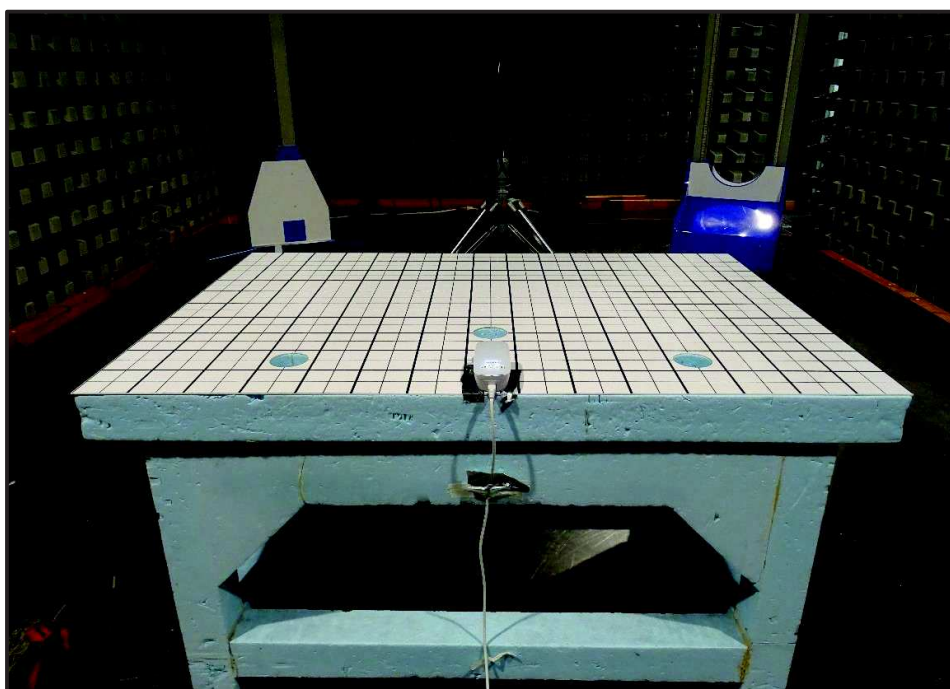

Photo 2: Radiated Test Sample-9 kHz to 30 MHz EUT Laying

1.1.2. Antenna 2 EUT Standing

Photo 3: Radiated Test Sample-9 kHz to 30 MHz EUT Standing

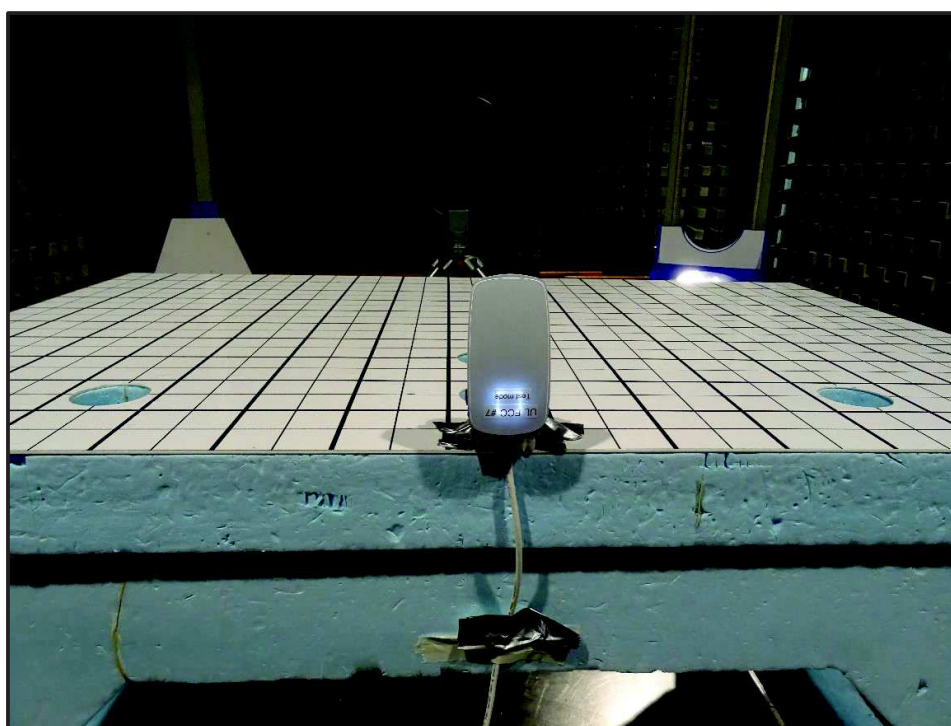

Photo 4: Radiated Test Sample-9 kHz to 30 MHz EUT Standing

1.2. Radiated Emissions: 30 MHz to 1GHz @ 3 m

1.2.1. Antenna 1 EUT Laying

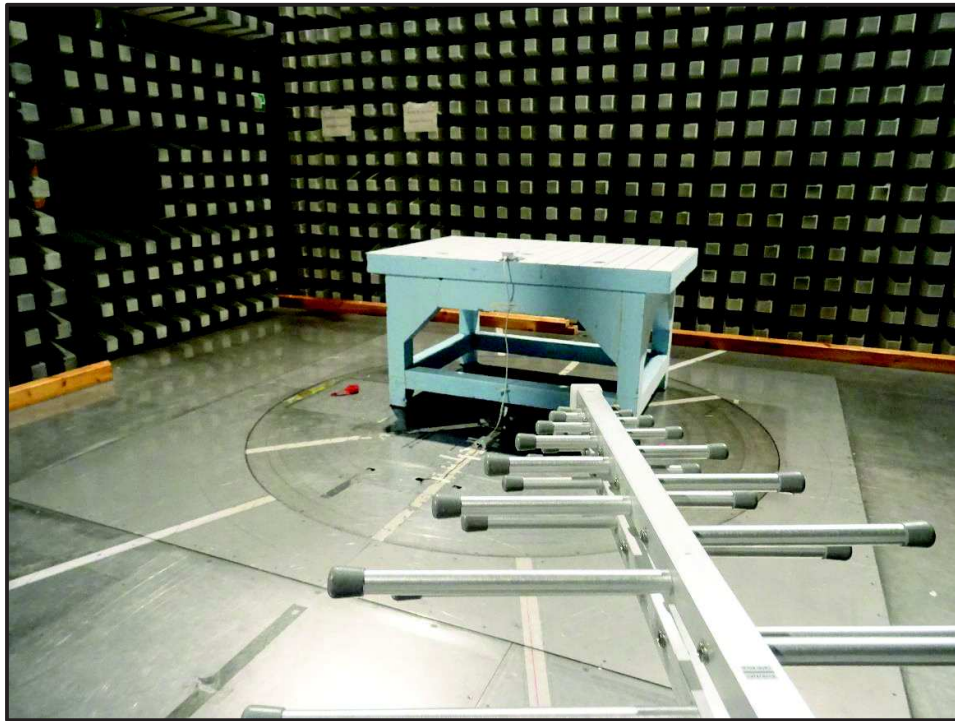

Photo 5: Radiated Test Sample-30 MHz to 1GHz EUT Laying

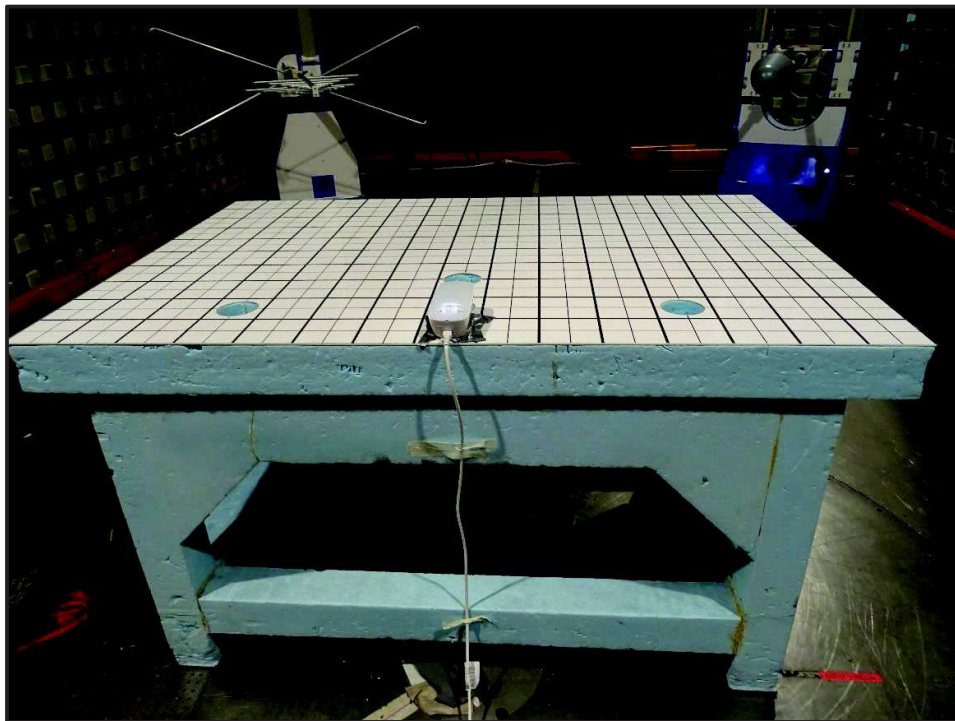

Photo 6: Radiated Test Sample-30 MHz to 1GHz EUT Laying

1.2.2. Antenna 2 EUT Standing

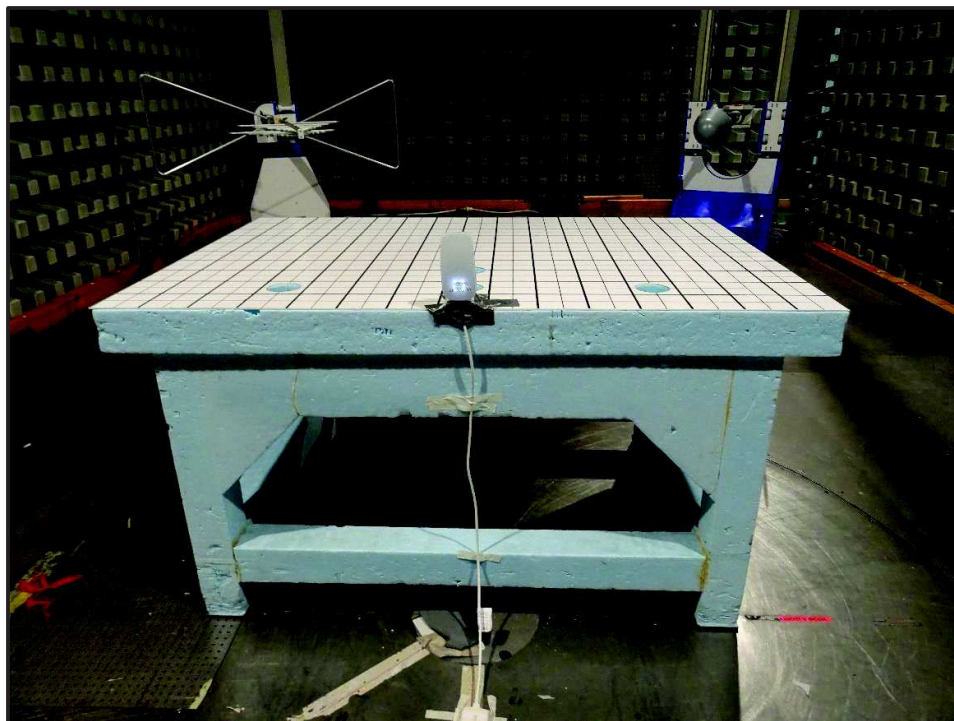

Photo 7: Radiated Test Sample-30 MHz to 1GHz EUT Standing

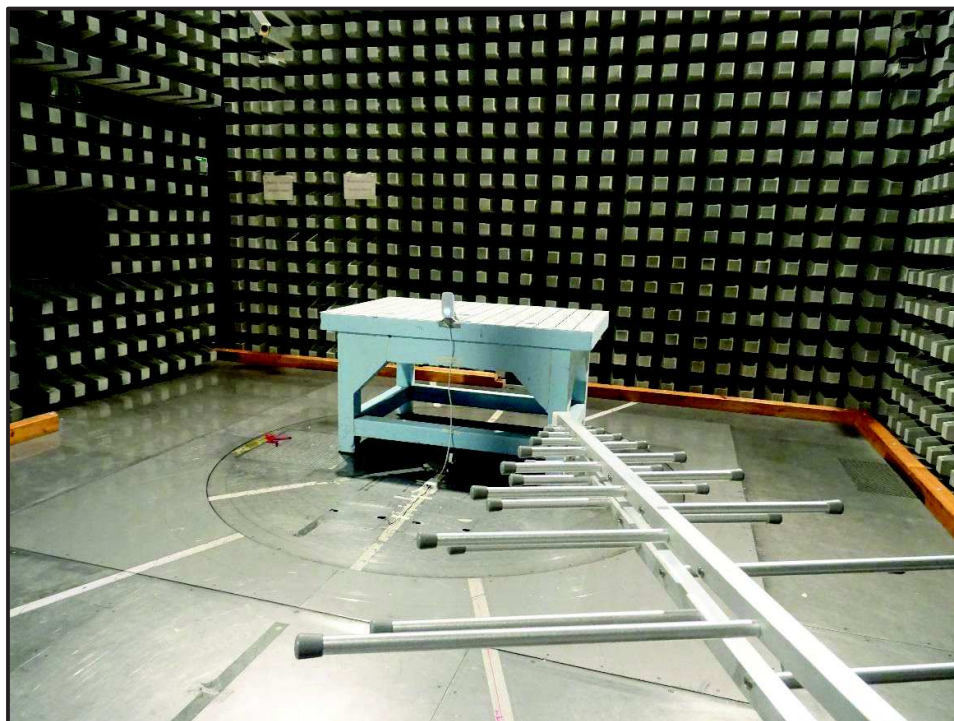

Photo 8: Radiated Test Sample-30 MHz to 1GHz EUT Standing

1.3.Radiated Emissions: 1 GHz to 10 GHz @ 3 m

1.3.1.Antenna 1 EUT Laying

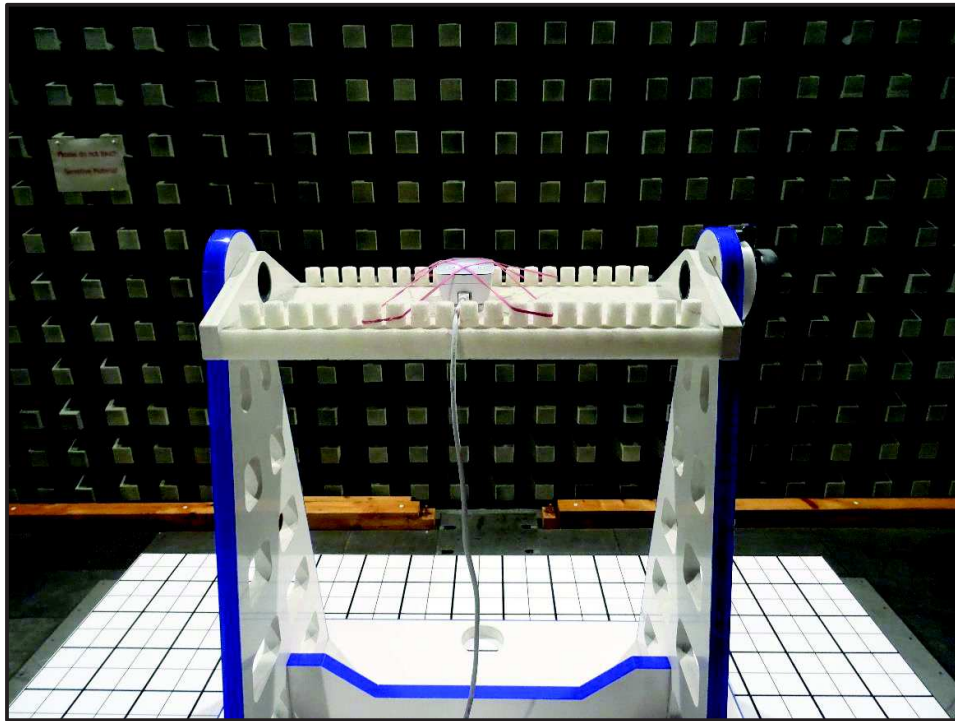

Photo 9: Radiated Test Sample-1 GHz to 10 GHz EUT Laying

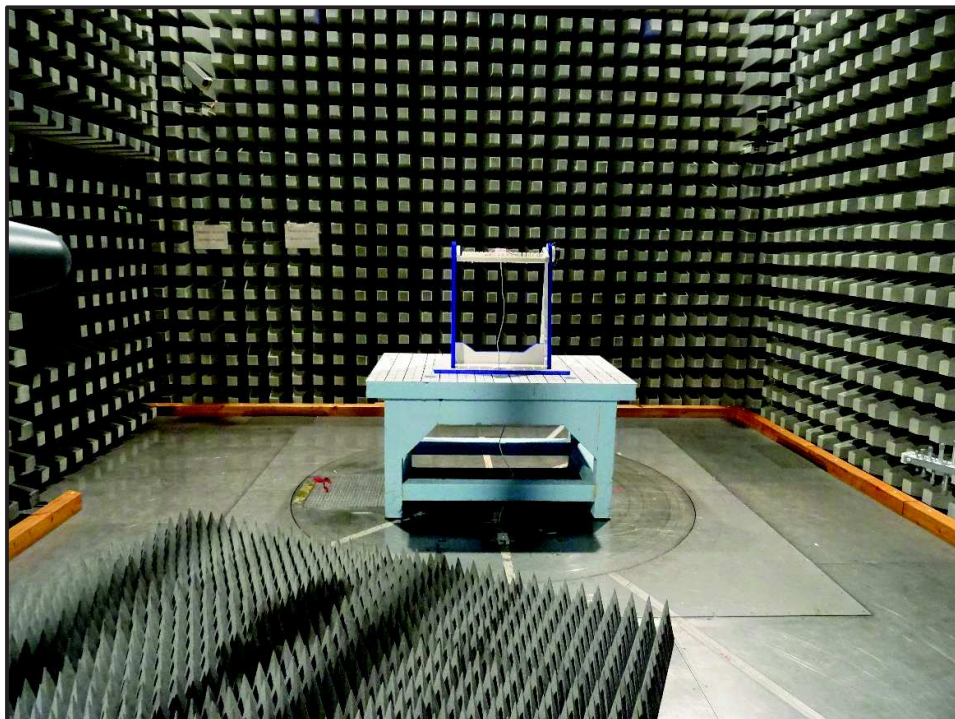

Photo 10: Radiated Test Sample-1 GHz to 10 GHz EUT Laying

1.3.2. Antenna 2 EUT Standing

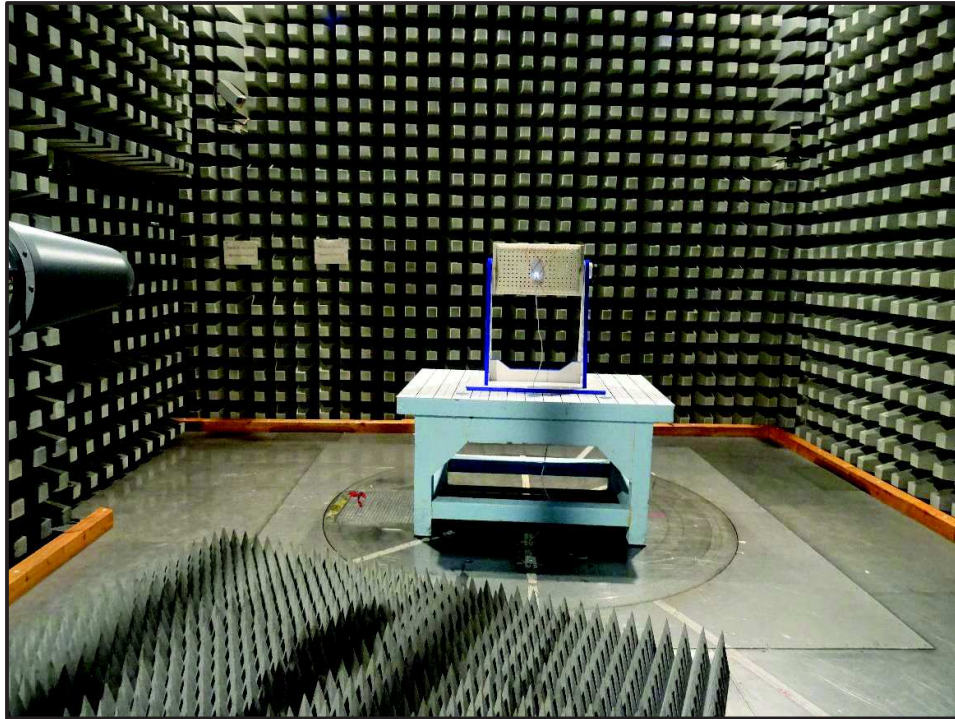

Photo 11: Radiated Test Sample-1 GHz to 10 GHz EUT Standing

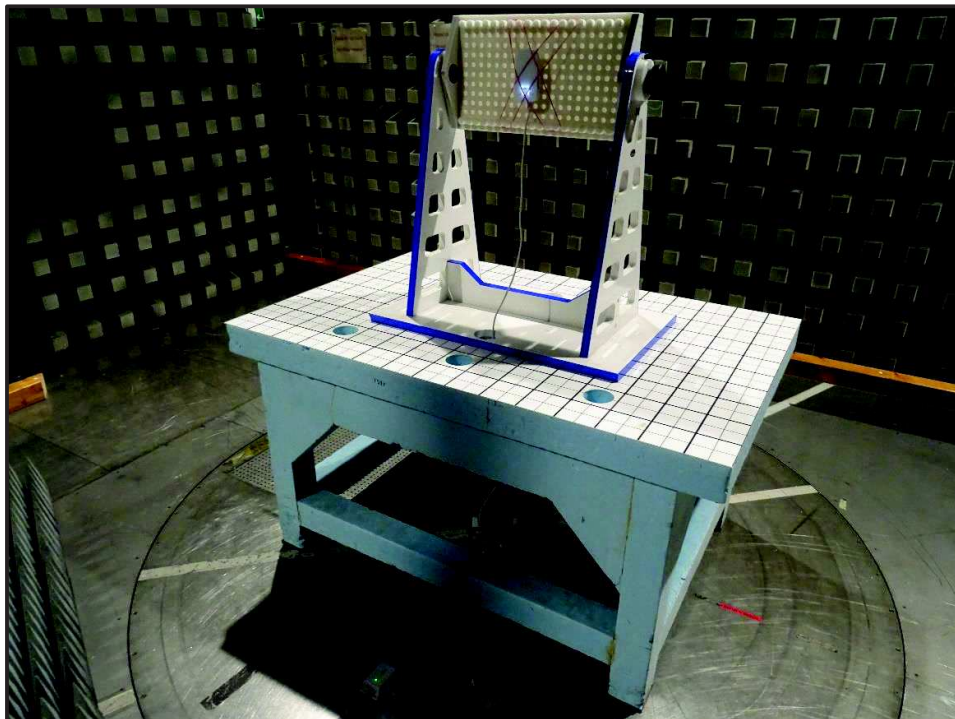

Photo 12: Radiated Test Sample-1 GHz to 10 GHz EUT Standing

2.Transmitter Conducted Emissions
