Warranty

At Ubio Labs, we are dedicated to designing and manufacturing products with superior performance and 100% customer satisfaction. All of our products come with a 1 year limited warranty from date of purchase.

We are always improving our products' features and functionality. We reserve the right to change product specifications at any time without notice.

IMPORTANT, RETAIN FOR FUTURE
REFERENCE: READ CAREFULLY

Important Safety Instructions

WARNING - When using this product, basic precautions should always be followed, including the following:

- a) Read all manufacturers instructions before using this product.
- b) To reduce the risk of injury, close supervision is necessary when the product is used near children.
- c) Do not put fingers or hands into the product.
- d) Do not expose wireless stand to moisture, rain, or snow.
- e) Use of a power supply or charger not recommended or sold by wireless stand manufacturer may result in a risk of fire or injury to persons.
- f) Do not use the wireless stand in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury to persons.
- g) Do not disassemble the wireless stand. Take it to a qualified service person when service or repairs are

required. Incorrect reassembly may result in a risk of fire or injury to persons.

- h) Do not expose the wireless stand to fire or excessive temperature. Exposure to fire or temperature above 122°F may cause explosion. The wireless stand's working temperature is ≤104°F.
- i) Have service performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.

FCC Statement

This device complies with part 15 and part 18 of the FCC Rules. Operation is Subject To the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 and part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.

This device complies with Part 18 of the FCC Rules. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and any other radio device.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

ISED Statement

This device complies with Industry Canada’s license-exempt RSSs. Operation is subject to the following two conditions:

- This device may not cause interference; and
- This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes:

- l’appareil ne doit pas produire de brouillage;
- l’utilisateur de l’appareil doit accepter tout brouillage radio électrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

During the operation of device a distance of 10 cm surrounding the device and 10 cm above the top surface of the device must be respected.

Cet équipement est conforme Canada limites d’exposition aux radiations dans un environnement non contrôlé.

au cours de l’opération de l’appareil sur une distance de 10 cm autour de l’appareil et de 10 cm au-dessus de la surface supérieure de l’appareil doit être respecté.
