Wireless Power
Bank
8,000mAh Portable

User Manual and
Safety Instructions

Power Bank

Features

- 1) Apple Watch Magnetic Charging Module
- 2) Qi Wireless Surface
- 3) Lightning Input
- 4) USB-C Input/Outputs
- 5) Battery Level Indicator
- 6) Wireless Charge Indicator

Before First Use

Connect power bank into a wall charger to activate.
The battery LEDs will light up.

Sleep Mode / Shake to Wake

Power bank goes into sleep mode after 30 seconds
when not in use. Shake to wake the power bank
before charging your devices.

Technical Specifications

Component: PWB1114
Input 1: Lightning Input 9W 5V / 1.8A
Input 2: USB-C Input 12W 5V/2.4A
Output 1: Qi (7.5W / 5W)
Output 2: Apple Watch Magnetic Charging Module
Output 3: USB-C Output 15W 5V/3A
Charge Indicator: White/amber LED indicator*
Dimensions: 5.57 x 2.74 x 0.49 inches
Weight: 6.17 oz.
Your wireless power bank is designed to provide
optimal power delivery for your wireless device:
• 7.5W wireless charging for iPhone 8 or later
• 5W wireless charging for Wireless Charging Case
for AirPods® and other compatible devices
• All Apple Watch Models
* A blinking amber LED indicates a foreign object has
been detected (metal objects like keys, coins, magnets,
etc.) and the device is automatically turned off to
ensure safety. Removal of foreign object and proper
alignment of phone will result in normal operation.

Warranty

At Ubio Labs, we are dedicated to designing
and manufacturing products with superior
performance and 100% customer satisfaction.
All of our products come with a 1 year limited
warranty from date of purchase.

We are always improving our products' features
and functionality. We reserve the right to
change product specifications at any time
without notice.

IMPORTANT, RETAIN FOR FUTURE
REFERENCE: READ CAREFULLY

Important Safety Instructions

WARNING - When using this product, basic
precautions should always be followed, including the
following:
a) Read all the instructions before using the product.
b) To reduce the risk of injury, close supervision is
necessary when the product is used near children.
c) Do not put fingers or hands into the product.
d) Do not expose power bank to rain or snow.
e) Use of a power supply or charger not recommended
or sold by power bank manufacturer
may result in a risk of fire or injury to persons.
f) Do not use power bank in excess of its output rating.
Overloaded outputs above rating may result in a risk of
fire or injury to persons.
g) Do not use a power bank that is damaged or modified.
Damaged or modified batteries may exhibit
unpredictable behavior resulting in fire, explosion or risk
of injury.
h) Do not disassemble the power bank. Take it to a
qualified service person when service or repair is
required. Incorrect reassembly may result in a risk of fire
or injury to persons.
i) Do not expose the power bank to fire or excessive

temperature. Exposure to fire or temperature above
100°C may cause explosion. The temperature of 100°C
can be replaced by the temperature of 212°F.
j) Have servicing performed by a qualified repair person
using only identical replacement parts. This will ensure
that the safety of the product is maintained.
k) Switch off the power bank when not in use.

This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions: (1)
this device may not cause harmful interference, and (2)
this device must accept any interference received,
including interference that may cause undesired
operation.

Caution: The user is cautioned that changes or
modifications not expressly approved by the party
responsible for compliance could void the user's
authority to operate the equipment.

Note: This equipment has been tested and found to
comply with the limits for a Class B digital device,
pursuant to part 15 of the FCC Rules. These limits are
designed to provide reasonable protection against
harmful interference in a residential installation.

This equipment complies with FCC radiation exposure limits set
forth for an uncontrolled environment. This equipment should be
installed and operated with minimum distance 20cm between the
radiator& your body.

This equipment generates uses and can radiate radio
frequency energy and, if not installed and used in
accordance with the instructions, may cause harmful
interference to radio communications. However, there is
no guarantee that interference will not occur in a
particular installation. If this equipment does cause
harmful interference to radio or television reception,
which can be determined by turning the equipment off
and on, the user is encouraged to try to correct the
interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and
receiver.
—Connect the equipment into an outlet on a circuit
different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV
technician for help.

CAUTION: Risk of Fire and Burns. Do Not Open, Crush,
Heat Above 45°C or Incinerate. Follow Manufacturer's
Instructions.

This device complies with Industry Canada licence-exempt
RSS standard(s).
Operation is subject to the following two conditions:
(1) This device may not cause interference, and

(2) This device must accept any interference, including
interference that may cause undesired operation of the
device.

Le présent appareil est conforme aux CNR d'Industrie
Canada applicables aux appareils radio exempts de licence.
L'exploitation est autorisée aux deux conditions suivantes:
(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage
radioélectrique subi, même si le brouillage est susceptible
d'en compromettre le fonctionnement

The device has been evaluated to meet general RF
exposure requirement. To maintain compliance with RSS102
— Radio Frequency (RF) Exposure guidelines,
this equipment should be installed and operated with a
minimum distance of 10cm between the radiator and your body.
Cet équipement est conforme aux limites d'exposition de
rayonnement d'IC RSS-102 déterminées pour un
environnement non contrôlé. Cet équipement devrait être
installé et actionné avec la distance minimum 10 cm entre
le radiateur et votre corps.
