

A photograph showing the disassembly of a white Pioneer 3-DX-EX mobile robot. The components are laid out on a grey surface next to two metal rulers for scale. The parts include: the main black chassis with internal electronics; the white upper body shell; a cylindrical air filter; a white plastic mesh cage; a black conical cap; a white circular base plate; a small black circular disc; a blue circular component; a clear plastic ring; a motor assembly with gears; and various cables and connectors.
