

This image shows a custom electronic circuit board, likely a microcontroller-based device. The board is green and populated with various components. Two digital displays are present: a large 4-digit display showing '8.8.8.8.' and a smaller 4-digit display showing '8.8.8.8.'. The board includes several resistors (e.g., 10K, 1K, 100K), capacitors (e.g., 100nF, 10uF), and a potentiometer. A ruler is visible on the left side for scale.
