

SHOWER SPEAKER USER MANUAL

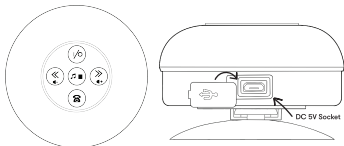

ban.dō

SAFETY INSTRUCTIONS:

Read this manual carefully before using the speaker and keep this manual for future reference.

- Keep the ban.dō shower speaker away from heat, direct flame, direct sunlight, and sharp edges.
- To avoid risk of short circuit do not insert any unintended metal object into the ban.dō shower speaker.
- To avoid a static charge, do not use the ban.dō shower speaker in an extremely dry climate.
- Do not submerge in water.
- Slightly moisten suction cup with water and firmly press to flat, clean, dry surface making sure there are no air bubbles.
- Not a toy. Keep out of children's reach.

Accessories included: 1 USB charging cable

TO CHARGE INTEGRATED LITHIUM BATTERY:

1. Insert the charging cable into the DC 5V socket on the speaker. Connect the USB plug into a computer or AC/DC adaptor with DC 5V 500mA.
2. The LED indicator turns red when the battery is being charged.
3. The red LED indicator turns off when the battery is fully charged.
4. When not charging, place cover securely over DC 5V socket to ensure water resistance.
5. Do not charge in the shower or other wet environments.

TECHNICAL SPECIFICATIONS:

Bluetooth® Support Range	5.0
Range	32 feet/10 meters
Transmitting Frequency	2.4 GHz
Power Supply	DC5V/500mA
Battery	3.7V 500mAh Lithium Polymer
Charging Time	Approx. 2 hours
Operating Time	Approx. 3 hours at 75% volume
IP Grade	IPx4
Unit Weight	Approx. 0.13kg

FCC compliance statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Important: Changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

FCC Statement:

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC statement:

This device complies with Industry Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. This equipment complies with Industry Canada radiation exposure limits set forth for an uncontrolled environment.
