

To Whom It May Concern

Subject: Class II Permissive change

Product: WL18MODGI

FCC ID: 2ATLD-WL18DBMOD

This is to inform you of request for permissive change on the WL37 WIFI and Bluetooth Module as described below:

Changes introduced in the device:

Module to be collocated with a Generic LTE module as described below

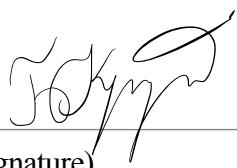

Attached to this submission is the MPE calculation. The calculation is based on calculations encompassing the combined specifications of the following module considered for product integration: TOBY-L200. We intend to certify the WL37 module with a generic module representing the general MPE specifications to permit the utilization of any cellular module that has the same or reduced transmitter and antenna specification.
