

Federal Communications Commission
Authorization and Evaluation Division
1435 Oakland Mills Road
Columbia, MD 21046

Date: 5th August 2022

SUBJECT: FCC Application for FCC ID: 2ATNO-BRMV001

To Whom It May Concern:

The only difference between 10x10 MVR under test (Model: BLU-1200) and 9x9 MVR (model: BLU-1300) is the number of coils. The BLU-1200 has 100 coils and BLU-1300 has 81 coils, the rest is same for both variants.

Regards,

Yours faithfully,

Scott Turner
Engineering Manager
