1. Package List

Please check the Package List first

Before use, please check that all the items in the package are included. If any of the components are damaged or missing, please contact the store where you purchased the product immediately.

Package List

① Bone conduction headphones	-----	1
② Charging cable	-----	2
③ Earplugs	-----	2
④ English manual	-----	1

2. Precautions

To avoid personal and property harm, please follow the precautions listed below for safe use and storage.

Danger	
	Do not short the terminals of the power supply. Do not carry or store the power supply with small metal objects such as metal necklaces, keys, and coins.
	Do not heat it, place it on or near heat sources, and do not throw it in fire. Do not charge, use or place it at high temperature; doing so may cause overheating, ignition or explosion.
	Do not submerge it or use to charge when wet; to prevent risk of electrical shock never use in wet areas.

Warning	
	Due to the influence of emitted sound waves, do not use while on an airplane or close to medical equipment.
	To prevent accidents when using it outdoors, please be aware of the surrounding traffic environment.
	Do not disassemble, tamper, or modify the unit.
	If you have a pacemaker, you must keep this device at a distance of more than 22 cm (8.66 inches) away from it.
	Never charge it with wet hands, to prevent electrical shock.
	Avoid throwing the device or hard impact to it.
	Always keep it out of the reach of infants and children as they may accidentally wrap the headphone cord around their neck or swallow the earpiece and cause suffocation.

Note	
	Please use and store the device in a dry and dust-free environment.
	When using this product, do not turn up the volume too much. Long-term use at high volume may adversely affect hearing. To avoid the impact of an initial very high volume, switch the volume to low and gradually increase the volume to adjust as needed.

3. Bluetooth Wireless Technology and Specifications

What is Bluetooth

For computers, audio systems, digital cameras, etc., Bluetooth is a wireless technology for short-distance communication between digital devices, without having to use USB and/or audio cables; you can enjoy music and make calls through wireless communication up to a distance of about 10m (32.8 feet) between this device and the main source.

Specifications

Communication method	Bluetooth V5.0 (BK3288)
Built-in battery	Rechargeable lithium battery (3.7V 180mAh)
Impedance	8 Ω / 88dB
Model	Bone conduction
Maximum communication distance	The connectable distance is about 10 m (Class2)
Modulation method/frequency band	2.402--2.480MHz
Play frequency band	150Hz - 20KHz
Charging time	About 2 hours
Playable/Call time	Approximately 8 hours (35% volume)
Standby time	About 200 hours
Allowable working temperature/humidity	Temperature: 0-40°C Humidity: 20-80% (No condensation)
Waterproof performance	IPX7
Dimensions	Width 105mm x Height 42mm x Depth 142mm
Mass	About 33g
Accessories	Charging cable, earplugs, operating Instruction

4. Product Overview & Wearing Instructions

Product Overview

Wearing Instructions

- Refer to the picture on the right, place the bone conduction headset on the front of the ear and turn the hook back to wear it.
- This product comes with earplugs. If you are bothered by the surrounding sounds, use the earplugs as needed.

When using, twist the tip of the earplugs and insert into the ear canal.

Never place earplugs deep in the ear canal.

5. Operation

Turning on or off

On

Press and hold the right button for 3 seconds to turn on main units.

The LED on the main unit flashes for 3 seconds in blue, then the LED on the main unit flashes alternately in red and blue, and you will hear a tone through the headphones[Power on], then the units is turned on.

Off

Press and hold the right button for 5 seconds to turn off main units.

When you want to turn off the device, press and hold the right button for 5 seconds, the LED on the main unit flashes in red and you will hear a tone through the headphones[Power off] ,then the units is turned off.

Breathing Light Mode

When Listening to music

The indicator light turns green when playing music.

When the music is paused, the light goes out.

When Calling

When you receive an incoming call, the indicator light flashes in green.

The indicator light turns green during the call.

How to turn on or off the breathing LED light

Press and hold the multi-function right button for 2 seconds to turn off/on the breathing LED light. When you restart the headphones, the Breathing LED will light up.

How To Pair (First Pairing)

Pairing is the operation of initially connecting this Bluetooth headset to a playback device (such as a mobile phone, etc.) via Bluetooth technology.
Please make sure to complete Bluetooth pairing before the first use.

1 The headset must be fully charged and disconnected from the power source. Prepare the headset and Bluetooth device.

- Do not place any obstacles between the two devices, and keep both devices at a maximum distance of 10m (approximately 32.8 feet).
- Make sure that the Bluetooth device is turned on.

2 Long press the power button on the right for about 3 seconds.

- While the power is turned on, the LED indicator turns blue and hold for 3 seconds, then the red and blue LEDs flash alternately.
- Enter search mode (search for available devices). In the search mode, The red and blue LEDs will flash alternately and you will hear the [Pairing] tone through your headphones. Wait for the name H-16 to appear on your screen and follow the pairing steps.

3 Connect and pair

How to connect and pair

When the name H-16 of this product (headphone) is displayed on the Bluetooth device, select it and perform connection pairing.

Once successfully paired

The headset is ready to start playing when you hear the voice prompt [Connected].

Set up

H-16

4 Note:

- Supportable configuration files: This main units supports Bluetooth standard Ver.5.0 (profile. HSP / HFP, A2DP, AVRCP).
- Some devices that support multiple configuration files require configuration file selection. In this case, please choose one of the files on the above. We cannot guarantee that the main units supports other configuration files other than the above files.
- When the units you are trying to connect to is performing Bluetooth communication with other peripheral units, it will not be able to pair with this unit. In this case, please disconnect from the other device before pairing with this unit.
- After adding it, if the connection is abnormal or cannot be connected normally during use, please try pairing it again.
- When a device that has been connected to a Bluetooth headphones before is turned on the Bluetooth function, the headphones will automatically connect to the previous device. But if you use a new device that was not connected to a Bluetooth headphones, please attempt to reconnecting the device with the operation instructions.
- If the headphones are connected to a device that you did not expect, please turn off the device or turn off the Bluetooth, and then try pairing it again.
- These units can pair up to 8 Bluetooth devices. After each connection, if you do not delete the connection record on the phone, it can connect automatically next time. However, when the wireless headphones have been connected to more than 8 Bluetooth devices, the earliest device of the eight will be forgotten to make room for newer devices.

Audio Control

Listening to music	How to control
To play or pause a music track	Press once the left or right function key
To skip to the previous music track	Press the left function key 3 times consecutively
To skip to the next music track	Press the right function key 3 times consecutively
To increase the volume	Press the right function key twice consecutively
To decrease the volume	Press the left function key twice consecutively

Example: To increase the volume while listening to music or calling, press the function key twice consecutively. Please note that if the function key is not pressed rapidly twice the device will not adjust the volume as desired.

Calling

Calling	How to control
To answer an incoming call	When wearing your H16 headphones, press the button of either the left or right to answer a call.
To reject an incoming call	When wearing your H16 headphones, long press the button of either the left or right for 2 seconds.
To end a call	When wearing your H16 headphones, press the button of either the left or right to end a call.

Charging

Operation

Your H16 Bone Conduction Wireless headphones comes with a portable charging cable. Before using the main units for the first time, you must charge them. The LED indicator turns red during charging and turns blue when the headphones is fully charged.

Note

- The maximum communication distance, charging time, playing/calling time and standby time are for reference only and may vary depending on use conditions.
- When using for the first time, please fully charge the battery before use.
- This product cannot be used while charging.
- Always use the included cable for charging. If it is connected through another charging cable, it will not charge correctly. Do not use the supplied charging cable with other devices.
- If the unit is connected to a computer, the computer will not be able to charge normally after it enters the power saving mode.
- When charging from a household power outlet, please use a USB charging AC power adapter (sold separately).
- If the battery is not used for a long time, the battery life may be shortened. After repeated charging and discharging several times, it can be fully charged.

连接方式	Bluetooth V5.0 (BK3288)
内藏/外置	充电式离子聚合物电池 (3.7V 180mAh)
类型	骨传导
最大通话距离	足以 10 m (Class 2)
连接方式 / 固波数据带宽	2.402...2.480MHz 150Hz - 20KHz
再生固波数据带宽	约 2 跃带 (残量比口力57dB无需求(ε))
无电转换	再生 · 通路可能转换 约 8 跃带 (35%音量)
待机可能转换	约 200 跃带
音容制作温度 / 湿度	温度 : 0 ~ 40°C 湿度 : 20 ~ 80%
防水性能	IPX7
外形设计	幅 105mm x 高 42mm x 厚 142mm
重量	约 33g
附属品	专用充电线一根、耳挂、取拔器明带

主要功能

Bluetooth 5.0、180mAh 大容量电池，支持长久续航，比一般的蓝牙耳机的续航时间长，适合户外运动，近距离（最大约 10m 以内）打电话、上网聊天等。

取扱説明書

音量調節ナビゲーション

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
