For new accessories and spare parts, visit

[www.ugurelektronik.com](http://www.ugurelektronik.com) | Check [www.ugurmetaldetectors.com](http://www.ugurmetaldetectors.com) regularly.

## Package included

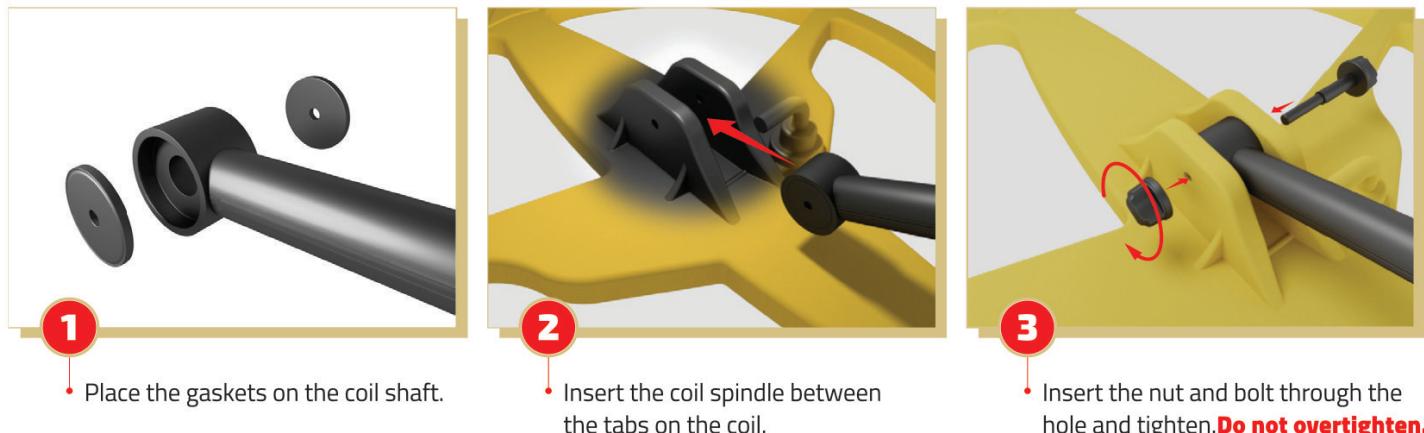

- 1- Upper Shaft with Screen
- 2- Center Shaft
- 3- Coil Shaft
- 4- 31cm DD Search Coil
- 5- 40cm DD Search Coil
- 6- USB Charging Cable
- 7- Water Resistant Carriage Bag
- 8- Coil Strap (x 2 Pieces)
- 9- Coil Nut and Bolt
- 10- Headphone

## Installation & Start

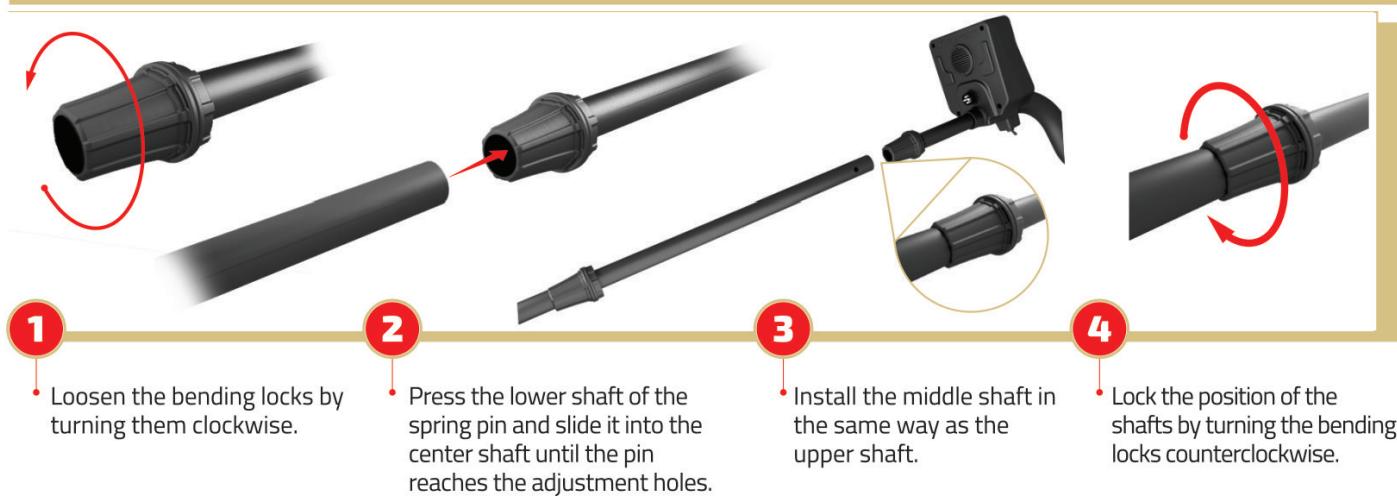

*In order to assemble your detector easily, follow the descriptions in the pictures.*

### Coil Shaft Connection

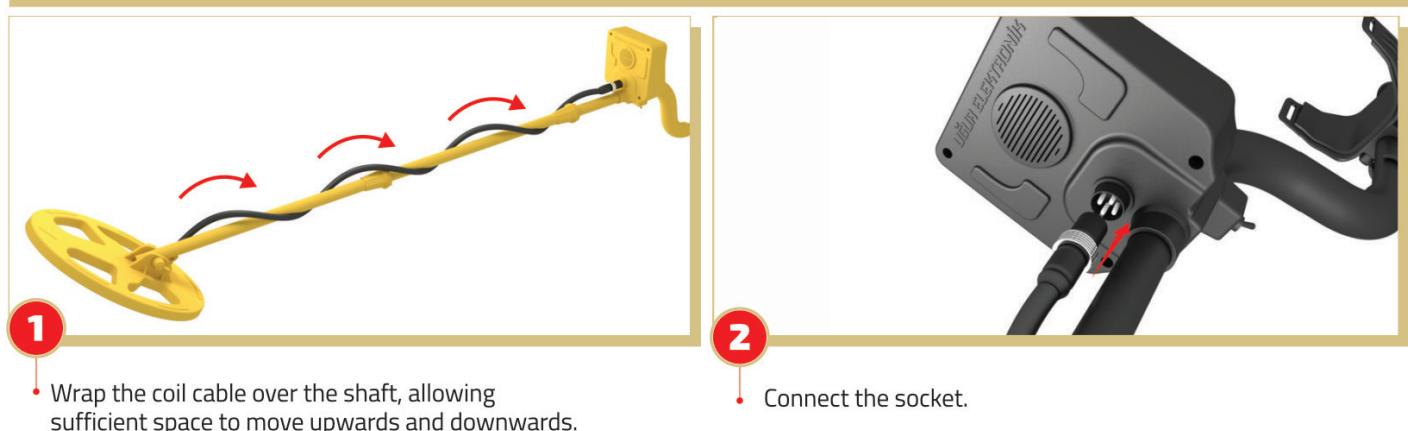

- 1 Place the gaskets on the coil shaft.
- 2 Insert the coil spindle between the tabs on the coil.
- 3 Insert the nut and bolt through the hole and tighten. **Do not overtighten.**

### Shaft Connection

- 1 Loosen the bending locks by turning them clockwise.
- 2 Press the lower shaft of the spring pin and slide it into the center shaft until the pin reaches the adjustment holes.
- 3 Install the middle shaft in the same way as the upper shaft.
- 4 Lock the position of the shafts by turning the bending locks counterclockwise.

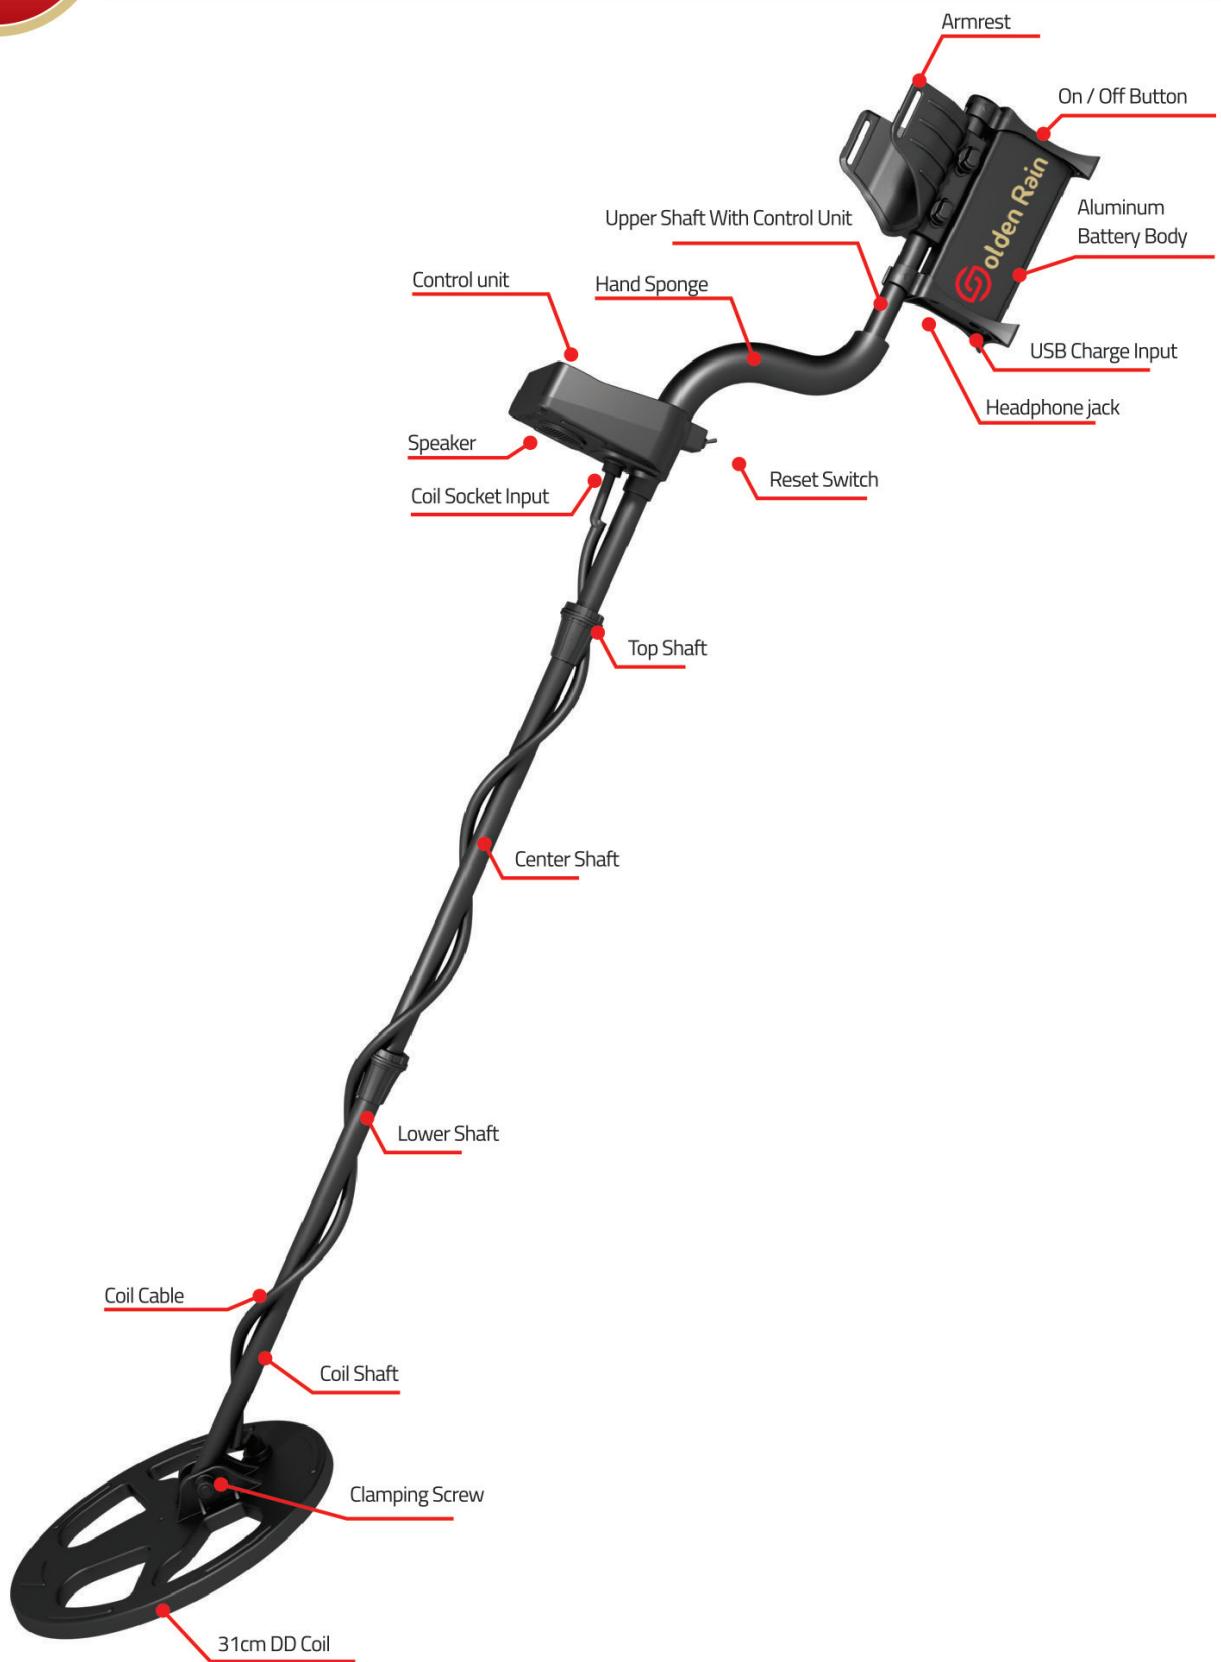

### Coil Cable Connection

- 1 Wrap the coil cable over the shaft, allowing sufficient space to move upwards and downwards.
- 2 Connect the socket.

## Installed Detector

## Detector Battery

The Golden Rain detector comes with a powerful Lithium battery.

We will try to provide information about the battery charge and the points to be considered. Please contact for further information.

## Charging the Battery

***It is recommended to use with a fully charged battery!***

The Golden Rain detector comes with a USB charger.

**1**

Connect the supplied charging cable to any power source.

**2**

Charge the battery by inserting the terminal into the relevant section on the device.

## Battery Status Indicator

***Shows the current status of the battery.***

**100% - 75**

**75% - 50**

**50% - 25**

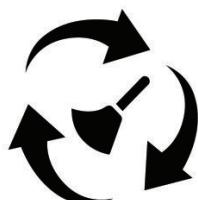

**25% - 05 Requires Charge**

***When the battery is low, it won't allow you to make any detection.***

***You need to charge your battery as soon as possible to fix it.***

## Battery Care

The performance of the lithium battery may fall if not used for a long time. To avoid this, fully charge the battery at least every 3 or 4 months. The battery may need to be replaced every few years.

***The battery may be provided by Uğur Elektronik.***
