

Overview

First-use

When use for the first time, open the charging case tap and hold the reset button for 2 seconds to power on the charging case. The earbud indicators will flash red and white alternately, and the earbuds will enter automatic pairing mode.

* When unboxing for the first time, please remove the protective film inside the charging case before use.

Fitting

Rotate the earhook hinge and slide the earhook behind your ear until it rests gently over the top of your ears. If you feel uncomfortable or unstable, stretch the hinge appropriately to find the position that works best for you.

Sterilization with UV-C light

* The data comes from authorized third-party testing institutions. All the data is obtained at the laboratory and is for reference only. The sterilization can effectively kill 99.9% or more harmful bacteria such as Staphylococcus aureus, Escherichia coli, Candida albicans, Salmonella, Klebsiella pneumoniae and Pseudomonas aeruginosa at the corresponding area on the earbuds.

Charging

Connect ARC 3 charging case to a power source or place the charging case on wireless charging pad.

A 5-minute charge of earbuds will offer **1** hours of play time. Up to **6** hours of total playtime with fully charged earbuds. With additional **24** hours with charging case.

Earbuds Sync Mode

When an earbud is lost, put the replacement new earbud and the old earbud into the charging case, slide to the left or right on the operation interface to click [Auxiliary] → [Earbuds Sync] to complete pairing.

Restore factory setting

Using Cleer+ App, click [Settings] → [Function Management] → [Clear Paired Devices] successively, to complete the operation.

Using charging case, slide to the left or right on the operation interface to click [Auxiliary] → [Reset Earbud] to complete the operation.

Restore factory settings for charging case
Put both earbuds back into the charging case, close the charging case, slide to left or right on the operation interface to find [Reset Charging Case], and tap Restore Factory Settings to complete operation.

Cleer dongle pairing

1. Plug the Cleer Dongle into the device with a TYPE-C socket.
2. Long press the MFB button of the dongle until the LED of the dongle starts flashing alternately between red and white. The dongle is now ready for pairing.
3. Put ARC 3 in Bluetooth pairing mode too.
4. Put ARC 3 close to the dongle, and they will connect automatically. The LED of the dongle will be white breathing.

* It's easy to connect to a device with a TYPE-A socket by using a TYPE-A to TYPE-C adapter.
** Note that some Android mobiles may need to enable the "OTG" setting to use the Cleer Dongle. Please contact your mobile service provider for more information.

Mode switching (LL or HD)

Default
LL mode, with ultra-low latency. The LED is white breathing.

Double tap
HD mode, with high definition audio. The LED is red breathing.

* The dongle will store the last mode.

Restore factory setting for Cleer dongle

Long press the MFB button of the dongle for 10 seconds, and the LED of the dongle turns off and then starts flashing white until alternately between red and white. The dongle is now restored to its factory setting, and the pairing history is cleared up.

Specifications (ARC 3)

Driver: 16.2mm neodymium dynamic driver

Audio CODEC support: aptX™ Lossless, aptX™ Adaptive, LDAC, AAC, SBC

Frequency response range: 50-40kHz

Connections: USB-C cable for charging, Charging current 5V/2A

UVC: UVC 270±10nm

Battery charging (earbuds): A 5-minute charge will give **1** hour of playtime; less than 2.5 hours for a full charge (when charging via USB-C cable). Charging case is fully charged by wireless charging in 4 hours.

Playback time: Up to **6** hours*, in total **30** hours with charging case

Support: Bluetooth 5.4, A2DP v1.3.2, AVRCP v1.6.2, HFP v1.9

Weight: 12g (per earbud), 130g (earbuds and case)

Specifications (Dongle)

Audio CODEC support: aptX™ Adaptive, aptX™ HD, SBC

Frequency range: 2402-2480MHz

Support: Bluetooth 5.4, A2DP v1.3.2, AVRCP v1.6.2, HFP v1.9

Input: 5V/100mA

Maximum power of RF: 8dBm

Weight: 2.2g

*Data comes from Cleer Lab. The playtime is tested by AAC-encoded audio at 50% volume on Apple mobile device. Specific battery life will vary depending on the volume, connected device and usage habits. Please refer to your mobile device when you use them.

Tips

1. How to set up your iPhone to answer calls with Bluetooth earbuds:
[Settings] → [Accessibility Functions] → [Touch] → [Call Audio Routing] → [Bluetooth Headsets]
2. Volume sync setting
a. iPhone and earbuds volume are automatically synchronized, namely, the volume displayed on iPhone is the volume of the whole system of the earbuds.
b. Android phones (not all) volume is not synchronized with earbuds volume, so users need to set up the volume synchronization on their Android phones. Ways of setting are different based on phone brands, you need to consult with phone manufacturers to confirm.

* HarmonyOS setting reference: Settings → Bluetooth → Setting Icon of Earbuds → Bluetooth device volume is synchronized with the phone.
** For Huawei EMUI system/VIVO/OPPO phones, find Developer Options in Settings, and then find Bluetooth Absolute Volume (the function is deactivated by default). Bluetooth earbuds will be synchronized with the phone volume after the function is activated.
*** Generally, for other Android phones, it is most likely also to find Absolute Volume function in Developer Options.

Quick troubleshooting

1. Earbuds don't charge in the charging case: first make sure the charging case is charged. Then check the charging contacts of the earbuds and the charging case respectively, and use soft cloth to clean up the dirt on the contacts and then try again.
2. Touch screen of charging case does not respond: open the charging case, tap and hold the charging case reset button for 8 seconds and the charging case will be reset.
3. Earbuds are hot when charging: when charging earbuds in charging case, especially the earbuds with 0% battery level, it is normal to be slightly hot for the earbuds during fast charging. After taking the earbuds out of the charging case, the temperature of the earbuds will return to normal. But when the earbuds become extremely hot, take them out of the charging case immediately and contact the after-sales service for further processing.

1. If the earbuds are exposed to dust, sweat, ink, oil, pollen, or chemicals (such as soap, hand sanitizer, shampoo, shower gel, laundry detergent, detergent, cosmetics, anti-UV products, antibacterial spray, high-concentration alcohol, insecticide, and mosquito repellent) and other substances that may causedamage to the earbuds, please wet a piece of cloth with less water and wipe the earbuds. Then, wipe them with a piece of dry, hairless soft cloth and dry them in the air.
2. Do not use any chemicals or organic solvents (such as soapy water, hand sanitizer or other acid-base solvents) to clean the earbuds, or the residual may cause skin irritation.
3. Please regularly use a soft, hairless cloth to wipe the earbuds. Do not use paper towels or cloth containing wood fibers. Do not use dirty or abrasive cloth.
4. When you put the earbuds back into the charging case for charging, please make sure that the earbuds are dry and clean.
5. When charging of the earbuds fails, please check whether the charging contact point of the charging case and earbuds are dirty. If yes, please wipe them clean with a piece of cloth or cotton, then try again.

Specifications (ARC 3)

Driver: 16.2mm neodymium dynamic driver

Audio CODEC support: aptX™ Lossless, aptX™ Adaptive, LDAC, AAC, SBC
