Item	Specification
Product Model Number	P5000A
Capacity	5000mAh (2800mAh rated)
Battery	3.85V/19.25Wh
Rated Input Parameter	Type-C: 5V3A, 9V2A, 18W
Rated Output Parameter	Type-C: 5V3A, 9V2.22A, 12V1.67A, 20W Wireless: 5W, 7.5W, 10W, 15W

No.	Item	Description	Notes
1	Indicator	One orange indicator (Wireless Charging) Four blue indicators (Battery Level)	Used to indicate status of charge and discharge, and current battery level
2	Charging Indicator		
	◎○○○	Below 25%	The first blue light flashes
	●◎○○	25-50%	The second blue light flashes
	●●◎○	50-75%	The third blue light flashes
	●●●◎	75-100%	The fourth blue light flashes
	●●●●	Fully Charged	Four blue lights on
3	Battery Level and Discharge Display		
	○○○○	0%	No lights are on
	◎○○○	0-5%	The first light flashes blue
	●○○○	5-25%	The first blue light is on
	●●○○	25-50%	The first and second blue lights are on
	●●●○	50-75%	The first, second, and third blue lights are on
	●●●●	75-100%	All four blue lights are on
<p>NOTE: '●' indicates 'on' // '○' indicates 'off' // '◎' indicates flashing When wireless charging is operational, the orange light remains steady. If wireless charging is inactive, the light is off. In case of abnormal operation, the light blinks. </p>			

**PLEASE READ ALL INSTRUCTIONS AND SAFETY INFORMATION
CAREFULLY BEFORE USE TO REDUCE THE RISK OF PERSONAL INJURY, PROPERTY
DAMAGE, INCLUDING DAMAGE TO YOUR DEVICE OR ANY CONNECTED DEVICES, AND
ANY OTHER POTENTIAL HAZARDS.**

NOTICE

- This wireless charger is not compatible with non-MagSafe phone cases. It is intended only for use with compatible MagSafe cases, such as PopSockets MagSafe cases.
- Do not use a wall adapter (power supply) with an output of 5V/1A (5W) or less.
- Wireless chargers make charging more convenient than wired chargers, but confined by current wireless technology, their charging speed is slower than that of wired chargers.
- High temperatures will reduce charging speed and restrict power, which is something that happens to all wireless chargers. It is recommended that you charge your device in environments with temperatures below 25°C / 77°F.
- Both the protective phone case thickness and the position of your device on the wireless charger will affect the charging speed. Note that thicker phone cases may result in slower charging speeds.

IMPORTANT SAFETY WARNINGS AND PRECAUTIONS FOR USE AND HANDLING

WARNING: Risk of fire, explosion, serious injury, and property damage, including due to battery overheating. Do not expose the battery to fire, direct sunlight, liquids, or wet environments. Do not operate or store in environments with temperatures >40C (104F). Do not open, crush, allow to overheat, incinerate, or otherwise damage the product. Not a children's toy; keep out of the reach of children. Do not disassemble or modify the product in any way, which may cause potential hazards. Use only with compatible devices and in accordance with these instructions, warnings, and precautionary statements. Failure to follow these instructions and precautions could result in increased risk of fire, electric shock, or other injury or damage.

Handle this product with care. It may become damaged or defective if dropped, disassembled, or otherwise altered, modified, or disfigured. Using a damaged or defective device may cause or create a risk of injury or property damage.

When using this product, basic safety precautions should always be followed, including the following:

- 1) Store the product in a cool and dry place that is well-ventilated and, in a temperature, controlled area. Do not cover when charging.
- 2) Exposing a battery to an extremely high temperature, humid environments, open flames, or other heat sources can result in overheating, risk of fire, explosion or the leakage of flammable liquid or gas. Avoid prolonged continuous charging to avoid overheating or excessive heat emitting from the device .

- 3) Use of a power supply or wall charger not recommended or sold by the product manufacturer may result in a risk of fire, personal injury, or other damage.
- 4) Use only with compatible MagSafe cases.
- 5) Ambient temperature for storage and operation must be between 0C to 40°C / 32°F to 104°F
- 6) Do not attempt to disassemble, modify, or repair this product yourself as it may cause serious damage, injury and/or void any product warranty.
- 7) Charge and discharge once every 3 months or more frequently.
- 8) Avoid leaving the power bank in high temperature environments such as parked cars or direct sunlight. It is normal for the power bank to feel slightly warm when charging. However, should the power bank feel excessively hot to the touch, this could indicate a power bank malfunction. Heat can lead to battery swelling or, in extreme cases, pose a fire hazard.
- 9) Avoid prolonged direct or indirect skin contact when the device is in use or charging as it may cause discomfort or burning.
- 10) Do not clean this product with harmful chemicals or detergents or otherwise expose the product to liquids, which can cause a short circuit in the product. Use only a dry cloth to wipe the power bank clean.
- 11) Do not use product if wet and do not use the product around wet locations, such as near a sink, toilet, or bathtub. Using product when moisture is present can cause fire, electric shock, injury or damage to your device or other devices, among other things.
- 12) Do not attempt to dry the product with an external source, such as with a hair dryer.
- 13) Misuse, dropping, or excessive force may cause product damage. Discontinue use if any damage is caused.
- 14) In normal conditions, the battery performance will decline over several years.
- 15) Disposal of a battery into fire or a hot oven, or by mechanically crushing or cutting can result in an explosion.
- 16) When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems separate from each other.
- 17) Properly dispose of product, as necessary, in accordance with local regulations. Do not dispose with general waste. Improper disposal may lead to fire, explosion and/or other hazards.
- 18) Be aware that a discharged battery may cause fire or smoke.
- 19) A battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas.

20) Prior to each use, check for any damage to the device such as bulges, swelling, punctures, or other deformation. Do not use the product if damaged or suspected to be damaged.

DISCLAIMER

IN NO EVENT WILL THE MANUFACTURER, DISTRIBUTOR OR POPSOCKETS LLC BE LIABLE FOR ANY INCIDENTAL, DIRECT, INDIRECT, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES (SUCH AS, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFITS, BUSINESS, SAVINGS, DATA OR RECORDS) RELATED TO THIS PRODUCT. EXCEPT AS STATED HEREIN, NO OTHER WARRANTIES SHALL APPLY. [GP1] [BF2]

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the product and your body.

Magnet only provides wireless charging coil positioning and cannot be used as a mobile phone battery.

Note to users: Recommended to be placed on the table during charging.

The following importer is the responsible party (for FCC matters only).

Company Name: PopSockets LLC.

Address: 1426 Pearl St, Suite 400, Boulder, CO 80302

Phone: (303) 223-6922

IC Statement

This device complies with RSS-216 of Industry Canada. Operation is subject to the condition that this device does not cause harmful interference.

Déclaration d'Industrie Canada

Cet appareil est conforme à la norme RSS-216 d'Industrie Canada. Son utilisation est sujette aux conditions voulant que cet appareil ne cause aucune interférence nuisible.

RSS-Gen Issue 5 February 2021

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RSS-Gen numéro 5 Mars 2019

Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes:

(1) Cet appareil ne doit pas causer d'interférences.

(2) Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.

Tout changement ou modification non expressément approuvé par la partie responsable de la conformité pourrait annuler l'autorité de l'utilisateur à utiliser l'équipement.

RF Exposure Statement

This equipment complies with IC Radiation exposure limits set forth for uncontrolled environments. This equipment should be installed and operated with a minimum distance of 15 mm between the radiator and your body. This device complies with Industry Canada license-ICES-003. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device. This digital apparatus complies with CAN ICES-003(B)/NMB-003(B).

Le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

(Below logo needs to be sized correctly in final manual)

This product complies with the radio interference requirements of the European Community.

Declaration of Conformity

Hereby, PopSockets LLC. declares that this product is in compliance with Directives 2014/53/EU & 2011/65/EU. The full text of the EU declaration of conformity is available at the following internet address:

<https://www.popsockets.com>

To comply with RF exposure requirements, a minimum separation distance of 20 cm must be maintained between the user's body and the product.

(Below logo needs to be sized correctly in final manual)

This symbol indicates that this product shall not be treated as household waste. Instead, it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

GB Declaration of Conformity

Hereby, PopSockets LLC. declares that this product is in compliance with Radio Equipment Regulations 2017 and The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012. The full text of the GB declaration of conformity is available at the following internet address:
<https://www.popsockets.com>

(Below logo needs to be sized correctly in final manual)

To comply with RF exposure requirements, a minimum separation distance of 20cm must be maintained between the user's body and the product.
