Safety Instructions

WARNING:

- **STRANGULATION HAZARD**—Children have STRANGLED in cords . Keep this cord out of the reach of children (more than 3 ft (1m) away).
- **NEVER PLACE THE CAMERA OR CORD IN OR NEAR CRIB OR PLAYPEN.** Secure the cord at least 3 ft away from crib or playpen.
- **CHOKING HAZARD**—This product contains small parts which may cause choking.
- **SHOCK WARNING**—To prevent electric shock, NEVER use the camera near water, including near a bathtub, sink, laundry tub, wet basement, etc.
- **CAUTION**—Only insert a battery pack of the same type. Risk of explosion if battery is replaced with an incorrect type.

- Use only the DC adapters provided.
- Adult assembly is required. Keep small parts away from children when you are assembling.
- This product is not a toy. Do not allow children to play with it.
- This product is NOT intended to replace proper adult supervision of children.
- You MUST check your child's activity regularly, as this product will not alert parents to silent activities of a child.
- Before using this product, read and follow all instructions and warnings contained in this booklet.
- Do not allow water damage to the camera unit, power adapter, or charging cable which cause overheat of the charging components.
- Do not use unofficial third party charging cables to charge the device. This may result in overheat of the charging port. Only use the charging cables provided in the box.
- Do not use unofficial third party power adapters, especially high wattage adapters. This may result in overheat of the cable and/or charging port. Only use the adapter provided in the box.

Thank you for purchasing your
new Smart Baby Monitor (Bella U1)

FCC Statements

- These devices, including Baby Camera , comply with Part 15 of the FCC rules. Operation is subject to the following two conditions:

These devices may not cause harmful interference. These devices must accept any interference received, including interference that may cause undesired operation. Class B Digital Device. These equipments have been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. These equipments generate, use, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If these equipments do not cause harmful interference to radio or television reception, which can be determined by turning the equipments off and on, the user is encouraged to try to correct the interface by one or more of the following measures.

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult an experienced radio / TV technician for help.
- Caution to the user. The Federal Communications Commission warns the users that changes or modifications of the unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipments.
 - **Radiation Exposure Statement**
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
