FCC WARNING:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment

The distance between the product and user should be more than 20cm.

Wireless Fast Charger

Quick Start Guide

Model: NM-CH100

TAKE CHARGE

- 1 Unwind the cable from your charger and plug into a compatible adapter. Once the status light is blue, the charger has power and is ready for use.

To utilize fast-charging, you must use a QC3.0 adapter

- 2 Set your device on the face of the charger. The status light will turn from blue to green to indicate effective charging.

- 3 When charging is complete, rewrap the charging cable, toss in your bag and go!

If the light doesn't turn green, reposition your device until the status light changes

So, how'd we do?

Love it or hate it, we're dying to know what you think. Your feedback is super important to us. So please, take a quick minute to review our product.

Login instructions:

- 1 Click "Your Account"
- 2 Click "Your Orders"
- 3 Click on the Nomodo product you purchased and select "Create Your Own Review"

All good?

If not, hit us up ASAP so our support team can make it right.
