## Model Confirmation Letter

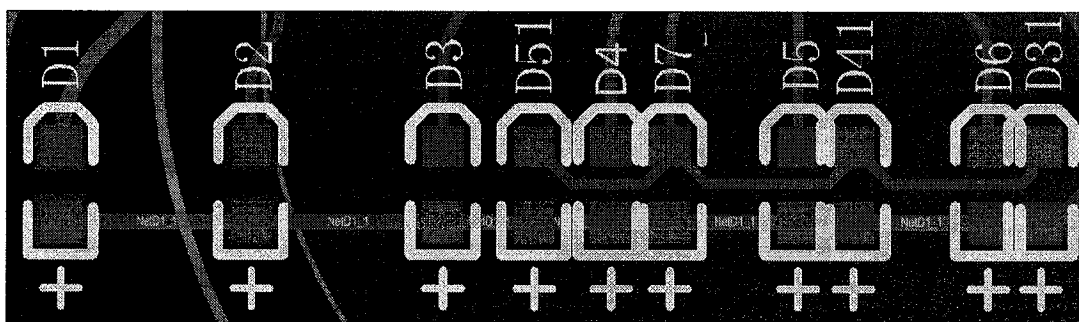

We, Smartplus Inc product:S802G01, S802G02, S802G06

S802G01 is a single channel remote controller.

S802G02 is a dual-channel remote controller.

S802G06 is a six-channel remote controller.

The PCB boards of the three remote controllers are exactly the same. The difference is that the mounting position of the LED lamp is different. The following figure:

Ten positions of D1, D2, D3, D51, D4, D7, D5, D41, D6 and D31 on PCB board.

S802G01 only mounts D51, D4, other not.

S802G02 only mounts D3, D4, D7, other not.

S802G06 only mounts D1, D2, D3, D4, D5, D6, D31, others are not.
