This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

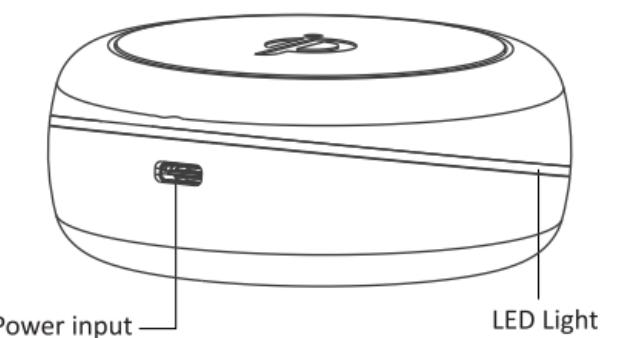

Wireless Qi Charger
SQL10 A1

Product Introduction

This Charging Pad is one intelligent wireless power charging product. Elegant design, applicable for phones and devices in line with WPC standards. No constraint, free and safe power charging experience.

Product Outline

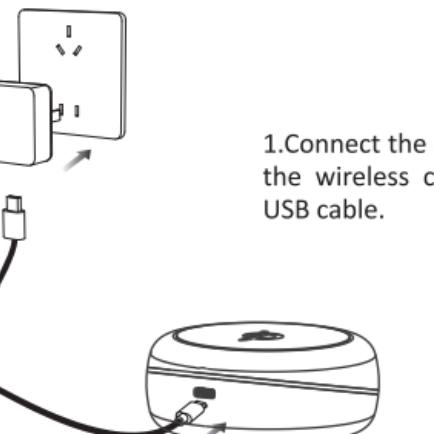

Applicable Device

- 1.Devices with built-in wireless charging receiver module (Samsung S9, iPhoneX/Xs Max/XR/8plus).
- 2.Devices with reserved wireless charging input port (Galaxy S5, Galaxy Note4 etc).
- 3.Wireless charging mod or case with receiver module (iPhone5, iPhone 6/6 Plus etc).

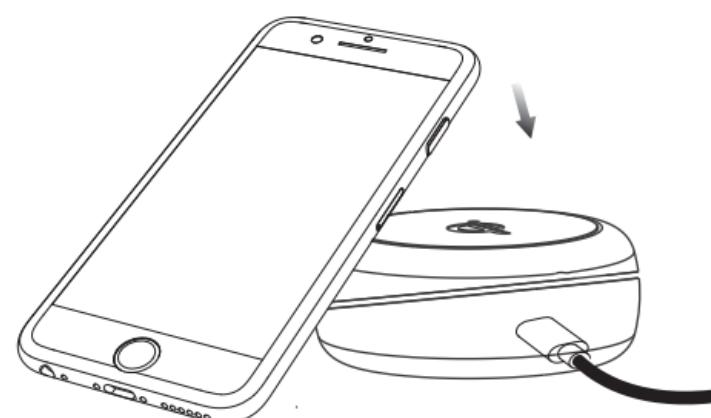

(Note: Receivers must meet WPC standard)

Instructions

1. Connect the adapter and the wireless charger with USB cable.

2. Place device with wireless power device on charging pad, then start charging immediately.

LED light status:

1. Blue LED flash 3 times, then turn off.
2. When it is charging device, the blue LED is always breathing.
3. After full charging, the LED is always light on.

Anormal LED status: Blue LED fast flashing

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
