Congrats on your new Wyze Lock Keypad!

## IN THE BOX

|                  |     |
|------------------|-----|
| Wyze Lock Keypad | x 1 |
| AA Batteries     | x 2 |
| Screws           | x 2 |
| Wall Anchors     | x 2 |
| Mounting Plate   | x 1 |

## Keypad

- 1. low power ICONS
- 2. Digital keys
- 3. lock key
- 4. unlock lock key
- 5. backplate
- 6. battery

## OVERVIEW

Wyze Lock makes your existing deadbolt smart by replacing the interior thumb latch. It does not alter the exterior lock.

## SETUP

### 1. Download the Wyze app

Log in or create a Wyze account

### 2. Setup the Lock Keypad

Plug the Lock Keypad into an outlet near your door (within 50 feet). In the Wyze app, tap the 3 dots on the top right corner of the Home Page. Select "Add a Product" and then "Wyze Lock Keypad". Follow the instructions in the app to complete setup.

## LIGHT INDICATIONS

### Wyze Lock Keypad

#### Flashing Green Light

The Keypad is ready to connect

#### Solid Red Light

The Keypad failed to lock or unlock

#### Solid Green Light

The Keypad successfully locked or unlocked

#### Flashing Green/Red Light

The Keypad is updating its firmware

#### Solid White Light

## TROUBLESHOOTING

### I can't get Keypad and Lock to pair

Make sure the Keypad's indicator light is flashing green showing it is in pairing mode. If problems persist, move the Wyze Lock Keypad closer to the Lock.

## FCC Part 15 Compliance

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference,
- (2) and (2) this device must accept any interference received, including interference that may cause undesired operation.

## ISED Regulatory Compliance

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction

with any other antenna or transmitter.

Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet émetteur ne doit pas être situé ou fonctionner conjointement avec une autre antenne ou un autre émetteur.

CAN ICES-3 (B)/NMB-3(B)
