The image shows a green printed circuit board (PCB) with various electronic components. A large, square, silver-colored chip with the label 'A1' is mounted in the center. To the right of the chip is a small, rectangular battery. A ruler is placed horizontally below the PCB, showing measurements in millimeters (0 to 60 mm) and centimeters (0 to 10 cm). The PCB has several circular holes and a complex network of traces. Other components include a small black chip, a yellow component, and a white connector. The background is a blue textured surface.
