FCC ID: 2AUBKOTX-18

Dear Sir / Madam:

I hereby confirm that the following requirements per FCC PART 15 Unlicensed Modular Transmitter Approval of Sec 15.212 & Public Notice # DA 00-1407 are met for Modular Approval certification:

Modular Approval Requirement	Comply
1) The radio elements of the modular transmitter must have their own shielding.	YES: The modular transmitter is equipped with a RF shield. Please refer to the external photos.
2) The modular transmitter must have buffered modulation/data inputs (if such inputs are provided).	YES: All the buffered inputs are integrated in the on-board chipset.
3) The modular transmitter must have its own power supply regulation.	YES: The power supply is regulated by the on-board regulator circuitry of the chipset.
4) The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c).	YES: The modular transmitter is equipped with a permanently attached antenna.
5) The modular transmitter must be tested in a stand-alone configuration	YES: The modular transmitter is tested in a stand-alone configuration with a test board. Please refer to the test setup photos.
6) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.	YES: The FCC ID number of the modular transmitter is permanently engraved on the modular transmitter.
7) The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	YES: The required FCC rules have been fulfilled and all instructions for maintaining compliance are clearly stated in the datasheet of the modular transmitter.
8) The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.	YES: The modular transmitter complies with the RF exposure requirements. Please refer to the RF test reports.

Sincerely,

R. Nooteboom
