Button Functions

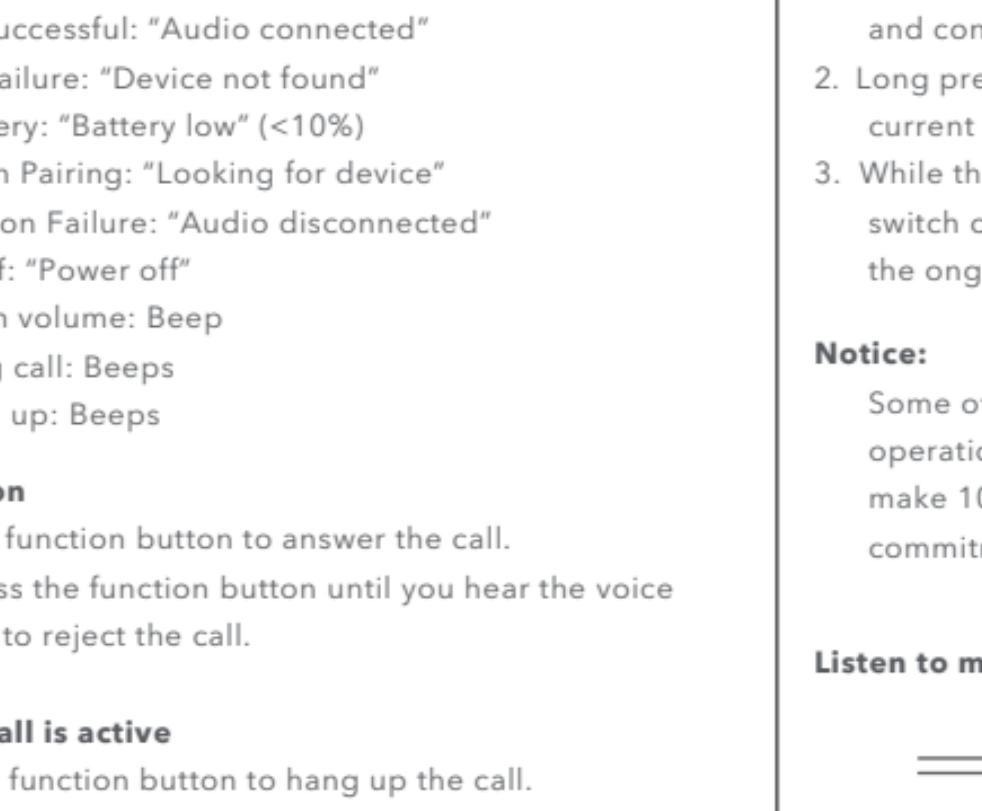

Pairing

Pair and connect for the first time

1. When the earphone is off, press the function button for over 2 seconds until the red and the white lights blink alternately and you will hear a voice prompt "Looking for device".
2. Activate the mobile phone Bluetooth, search and connect to the device name "Safe + Sound".

Turn On/Turn Off

Tuning on:

Press and hold the function button for about 2 seconds until the indicator (white) flashes.

Turning off:

Press and hold the button for about 2 seconds until the indicator (white) turns off.

Call Function

1. Press the function button once to answer the call, and make 10% efforts, even if only 1% people will see this.
2. Press the function button twice to hang up the call and continue to the last device.

Music playback will automatically pause if there is an incoming call.

When the earphone is off, turn it on to hear the voice prompt "Power on" and the earphone will automatically reconnect to the last device.

Repair

1. When the earphone is off, press and hold the function button for over 5 seconds until the red and the white lights blink, you hear the voice prompt "Looking for device".
2. If the earphone is automatically turned off due to insufficient power, charge the earphone online. If the earphone is not charged for a long time, the battery life may be faded.

Callswitching

When the earphone is in the pairing mode, press and hold the volume+ and volume- buttons for more than 5 seconds until the red light flashes three times followed by beeps. This procedure will clear the pairing history.

Pair

Press the function button to play music. Double click the Function button to start the voice assistant.

Specification

Type: Safe + Sound

Charging

1. When the battery power is less than 10%, the red indicator light will flash with voice prompt every 6 seconds.
2. While charging, the red indicator light is on.
3. When fully charged, the red indicator light is off.

Music playback will automatically pause if there is an incoming call.

Some of the mobile phone brands and models may differ in operation. For queries contact after sales or support. We are using optical fiber technology, read and follow the operation below to make the earphone work properly.
