

Notes:

In line with the policy of continued development, the manufacturer reserves the right to amend the specifications without prior notification. The pictures and data in the syllabus are for illustrative purposes only. If there is fluctuation, according to the real object please.

Since devices using 4.0 technology communicate using radio waves, your device and the other devices do not need to be in direct line-of-sight. The connection can be subject to interference from obstructions, such as walls, or other electronic devices.

FCC statement

Changes or modifications not expressly approved by the party responsible for compliance may void the user's warranty.

[illegible]

- ✗ Do not attempt to disassemble the device
- ✗ Use only the recommended battery. Using a non-recommended battery will void the warranty.
- ✗ Do not store the device for a long period of time without usage.
- ✗ Use the specified charger. Disconnect the device after the battery has been fully charged. Overcharging the battery will damage the system of the device.
- ✗ Do not use the device in extreme heat or cold. Extreme temperatures will cause the life span of the battery to shorten.
- ✗ Use only a charger that is only designed to charge a device like the device you are using.
- ✗ Do not clean the device with any harsh cleaning agents, solvents and other chemicals. These may cause damage to the device.

WINTERBURN

Notes:

Touchpad
This product was added to the innovative function of the mouse wheel, when you press the Fn button. With your fingers Touch anywhere in the sliding region, can facilitate the realization of the mouse wheel functions. This human design, it can be easier for to browse the web better, edit documents.

Connecting the receiver
Slide the receiver out from the side of keyboard, and insert to the devices with a standard USB interface. Once connected, slide the power switch to the "ON" position located on the left side of the unit to establish the connection.

Auto sleep and wake feature
The keyboard also features an auto sleep and auto wake mode. If there is a long period of inactivity, the keyboard will automatically go into a sleep mode. During the sleep mode, the user can wake the unit up by pressing any key. The 2.4 GHz receiver and keyboard's RF indicator will continue to flash and will not power down.

Switching off the keyboard after use
After finishing using the keyboard, push the switch to the off position. This turns off the power of the keyboard. The USB receiver should be plugged out from the PC and then inserted back in the keyboard so it is being kept safely.

Charging the battery (Only for Configure A)
The device with built-in lithium-ion battery, please use only approved data lines and chargers.
Fully charge the unit before operating for the first time. This device can be used when charging but will extend the charging time;
When the battery is low, the low-voltage light will flash to warn the user. The unit will automatically turn off if the battery has been depleted.

Notes: This product has the configuration of A and B configuration can choose

Configuration A: lithium battery version, this version is built in rechargeable lithium battery, additional charge USB line.

Configuration B: Install AAA * 2 battery, this version does not support the charging function.

Appendix
Technical parameters
Specification

- Measurements (L x W x H): 146.8 x 97.5 x 19mm
- Weight (grams): 110g
- Operational Range: up to 10 meters
- Transmit power: +5db Max.
- Operation voltage: 3.3V
- Operation current: < 50mA
- Charging current: < 300mA
- Sleep current: < 1mA
