1 Tripod Components List

Tripod bag

Tripod

Tray (with 2 M6 screws and 2 nuts)

Parts kit

Bubble level

Nuts

M6 screws

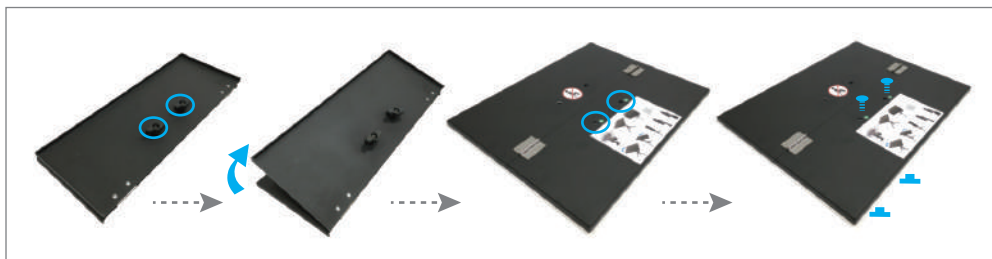

2 Assembly

1. Open the tripod. Adjust it to a proper height, and lock it.

2. Turn the tripod holder upright. Put a bubble level on the tripod holder. Adjust it to be horizontal. Then lock it tightly.

3. After unfolding the tray, remove the two pairs of M6 screws and nuts.

4. Put the tray on the tripod holder, align the two holes (around the big hinge head), and then lock two pairs of M6 screws and nuts.

***Note:**

Keep this side up. It is easy to be folded, and put to bag later.

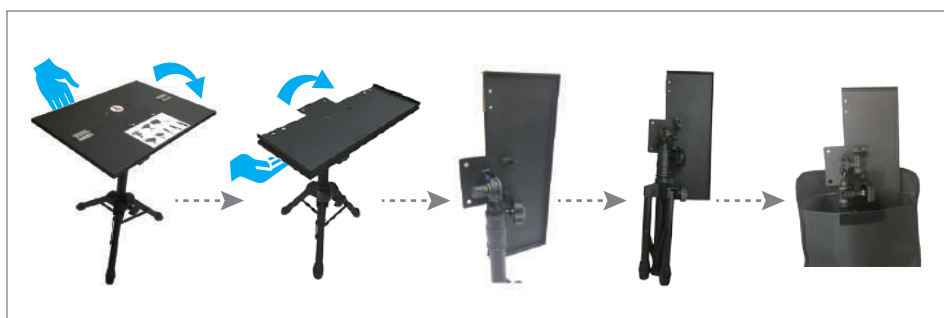

UP

DOWN
